- Windows Installer (32-bit)
- Windows PortableApps® (32-bit)
- macOS Intel 64-bit .dmg
- Source Code

Lanc Download For Mac

Older Releases

All present and past releases can be found in our download area.

Installation Notes

For a complete list of system requirements and supported platforms, please consult the User's Guide.

Information about each release can be found in the release notes.

Each Windows package comes with the latest stable release of Npcap, which is required for live packet capture. If needed you can download separately from the Npcap web site.

You can also capture packets using WinPcap, although it is no longer maintained or supported.

Live on the Bleeding Edge

Download

You can download source code packages and Windows installers which are automatically created each time code is checked into the source code repository. These packages are available in the automated build section of our download area.

Go Spelunking

You can explore the download areas of the main site and mirrors below. Past releases can be found by browsing the *all-versions* directories under each platform directory.
