

Antennas Low Band, Aviation, and VHF Antennas SY2062(C) Series

SY2062-SF3SNM(C)

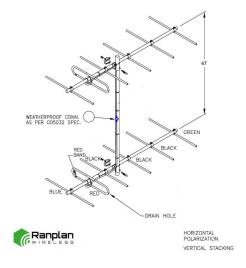

Yagi directional, dual array, center mount, 12 dBd, 157-164 MHz

- · Dual stacked six element Yagi for higher gain
- · Does not includes mounting pipe
- · DC grounded for lightning protection
- · Can be arranged horizontally or vertically stacked and horizontally or vertically polarized

The SY206 series of antennas consists of a six-element Yagi of outstanding durability and performance. All elements including the folded dipole are maintained at DC Ground potential for lightning protection. All elements on this antenna are attached to the boom with solid cast aluminum clamps.

This highly versatile antenna is supplied as a standard mount Yagi, or, as an endboom mounted unit.

As with other Yagi's, this VHF antenna is available in multiple-unit arrays for added gain. Horizontally or vertically parallel kits of 'H' frames can readily be supplied to mount two or four Yaqi's with a common feed.
