

UNIMIX STEP BY STEP

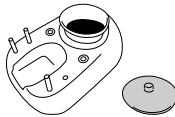

1. Place the stainless-steel UNIMIX bowl onto the scale.

2. Dispense your color formula.

Following manufacturer's instructions, measure appropriate amount of color or lightener and proper developer into bowl.

3. Move bowl, to the UNIMIX mixing plate.

Assure bowl makes contact with magnetic mixing plate.

4. Place magnet into bowl.

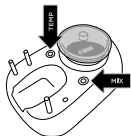

Place one magnet into the bottom of bowl.

5. Cover bowl.

Cover bowl with UNIMIX lid.

NOTE: Not covering the bowl may alter your hair color formula.

6. Start the UNIMIX.

Press the temperature button, then the mix button.

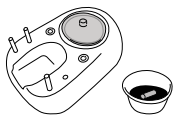

NOTE: Do not use the temperature button when mixing LIFT Powder Lighteners.

7. Allow formula to mix.

The UNIMIX will beep, then automatically turn off after 2 minutes.

NOTE: Do not over-mix as it may alter your formula.

8. Remove lid.

Remove the UNIMIX lid, wash and return to the UNIMIX unit.

9. Your formula is ready to apply!
