

# LET'S GO!

**thinkTANK** Freeway Longhaul™

## thinkTANK Freeway Longhaul™

*You can carry it all with the Freeway Longhaul!*

### Multiple carrying positions

Padded Shoulder Strap

Grab Handles

Duffel Straps

### Attachment of the shoulder strap

For best results, attach the shoulder strap to the two D-rings closest to your body. Alternate combinations are possible based on your preference.

### Zippered top cover offers security and peace of mind

Top cover tucks away into an interior pocket when not in use

### Installing the divider set in the Freeway Longhaul 50 and 75

With the flat pocket facing the side of the bag, attach the divider to the bottom of the Freeway Longhaul. The hook & loop should run from seam to seam without wrinkles or overlaps.

Attach the side of the divider from the bottom gradually to the top. Assume that the hook & loop does not overlap the seams and there are no wrinkles.

Fold the hook & loop tab on the bag over the top of the divider and secure.

### Freeway Longhaul 75 – Continued

Repeat on the opposite side, then repeat on the second divider.

Attach the middle divider to the floor horizontally between the two vertical dividers and secure to the hook & loop strips on the interior side of each divider.

Freeway Longhaul 50 has one divider

### Customize divider placement in the Freeway Longhaul 75 to suit your needs

The bag folds flat for storage, with dividers removed

**DIMENSIONS & WEIGHT** Freeway Longhaul™ 50  
 Exterior: 17.1" W x 12.8" D x 13.75" H (43.5 x 32.5 x 35 cm)
