

# Multi-Mount Holster 10, 20, 30, 50 Product Instructions

For more information please visit: [www.mindshiftgear.com](http://www.mindshiftgear.com)

## SHOULDER

**Step 1:** Attach shoulder strap to side webbing loops.

**Step 2:** Adjust webbing to desired length with tri-glides.

**Step 3:** To stabilize holster, slide waist belt through sleeve on rear of bag.

## CHEST

**Step 1:** Attach shoulder strap to side webbing loops.

**Step 2:** Use tri-glides to shorten webbing length to fit around neck. Tri-glides can slide into shoulder pad casing to obtain shortest strap length.

**Step 4:** To stabilize holster, slide waist belt through sleeve on rear of bag.

## BELT

**Step 1:** Slide backpack waist belt through sleeve on rear of holster.

**Note:** When removing your backpack, be sure to hold holster so that your bag doesn't fall to the ground when you unclip the backpack waist belt.

## FRONT

**Step 1:** Attach both pack-mount straps using the gate-keeper clips to any backpack shoulder strap with a webbing daisy chain.

**Step 2:** Attach pack-mount strap hook to side webbing loops on the holster and adjust to desired position.

**Step 3:** To stabilize, remove stabilizer straps from the holster's side pockets.

**Step 4:** Reach under backpack shoulder strap and guide the stabilizer strap underneath the backpack shoulder strap.

**Step 5:** Wrap stabilizer strap around the front of the backpack shoulder strap.

**Step 6:** Clip stabilizer strap into the holster's front webbing loops, indicated by a green circle, and tighten until stable.

## STORAGE

**Step 1:** Attach both pack-mount straps using the gate-keeper clips to a webbing loop or any strap located high on your pack. You may need to get creative.

**Step 2:** Attach pack-mount strap hook to side webbing loops on the holster and adjust to desired position on the front of your backpack.

**Step 3:** To stabilize, remove stabilizer straps from the holster's side pockets.

**Step 4:** Wrap stabilizer straps around compression straps on side of backpack or base of shoulder straps. Again, you may need to get creative.

**Step 5:** Clip into holster at the front webbing loops indicated by a green circle and tighten until stable.

## RAIN COVER

**Step 1:** Position rain cover with clips on top and pull over holster front. There will be a gap at the back of the bag.

**Step 2:** Attach clips to red cord. Be sure to leave webbing loops accessible for shoulder strap attachment.
