**StreetWalker® Backpack V2.0 Instructions**

**Step 1:** Locate the two adjustable tripod straps provided with the StreetWalker.

**Step 2:** To open the Double Gatekeeper buckle, press the gate inwards then depress the top plastic bar in order to release the gate.

**Step 3:** Slide the opened Double Gatekeeper buckle through the webbing loop and close it by depressing the top plastic bar and securing the gate.

**Step 4:** Attach the tripod straps to the webbing loops at the top and near the bottom of the StreetWalker.

**ADJUSTABLE STERNUM STRAP**
The sternum strap adjusts up and down along the blue rails on the backpack straps.

**REMOVABLE WAISTBELT**
The included waistbelt is removable by unthreading the webbing through the buckle.

**ATTACH A MODULAR BELT**
Remove the StreetWalker waistbelt. Pass a Think Tank Photo Pro Speed Belt™ or Thin Skin™ Belt (sold separately) into place for additional comfort or to be used with the Think Tank Modular Belt system. *Belt pass through available on the StreetWalker HD and StreetWalker Pro only.

**TRIPOD OR MONOPOD ATTACHMENT**

CARRYING A TRIPOD

**Step 1:** Insert two tripod legs into the outside lower pocket.

**Step 2:** Unlock the adjustable strap, then pull the strap tight around the top of the tripod. Tighten the lower strap around the exposed leg for additional stability.

USING THE TRIPOD CUP

**Step 1:** Locate the blue tab with the tripod icon near the bottom of the StreetWalker Pro and StreetWalker HardDrive.

**Step 2:** Pull tab downward to deploy the tripod cup. Use the included tripod straps to secure the tripod onto the backpack.
