## The Update of the Price

We appreciate for your continued support for us using HAKKO products.

Like many other manufacturers in the world are facing, the cost of electric parts and materials have been increased. And the freight charge to ship them to us has been increased, too.

Under such difficult circumstances, we have been trying to maintain our current price.

However, the current cost increase is beyond our effort and we have no other choice but increase our price. And the new prices will be introduced to the market in December 2022 or after.

We would like to make our effort to improve the quality of products and provide the better service as well as new products development to meet the customer's needs.

Your understanding is highly appreciated.

Sincerely yours,

**HAKKO CORPORATION**
