

## Propshaft Solutions to Driveline Problems

With more than 25 years experience in the industry, Drive Shaft Services are Ireland's foremost specialist propshaft company. We provide a complete service in the application, design and manufacture of Driveshafts, Propshafts and PTOs.

We are Ireland's largest stockist of Universal joints, Carrier Bearings and Driveline Components. Our ability to provide solutions to a wide variety of Driveline problems are however, merely part of the service we offer.

## Our Services and Stock

At Drive Shaft Services, we always stock the most comprehensive range of universal joints and carrier bearings in Ireland. We offer a bespoke service for a specialised market and we manufacture our own driveshafts at our custom designed, 10,000 sq.ft., Dublin 12 facility.

Drive Shaft Services offers a repair service on all HGV shafts and stock all components required for repair and modification with a 24 hour turn-around. No shaft is too big or too small for Drive Shaft Services.

Our company offers a full repair for Scania, Volvo, Mercedes-Benz, MAN and DAF amongst other leading manufacturers. Over 95% of our orders are despatched within 24 hours and everything we supply carries a 12 month warranty.
