

VEVER

Bracelets size guide

You can print this page with the setting "Narrow margins", scale 100% and then cut out the paper strip at the bottom of the page.

Create a slot on the left side, and then put the paper strip around your wrist. The number you get the closest to is the circumference of the bracelet you need: 14, 15 or 16 - S, M or L.

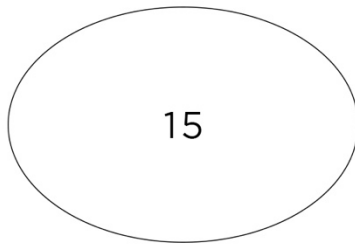

S

14

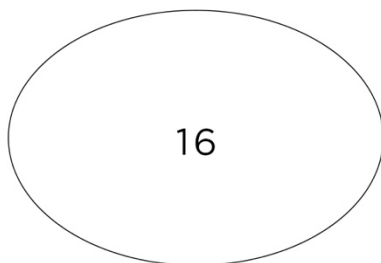

M

15

L

16
