

CROWBERRY SUPERFRUIT POLISHER

PRO Enzyme Exfoliator with Fruit Acids & Seeds

This 100% Natural, Vegan, Foaming Polisher is formulated with the most gentle, yet powerful, skin-exfoliating ingredients such as papaya and pineapple enzymes, blueberry seeds and cranberry seeds.

This exfoliant is designed with sensitive and problematic skin in mind, it combines gentle exfoliating ingredients, along with Anti-inflammatory and anti-bacterial ingredients, which exfoliates and nourishes at the same time, without any chemical Surfactants that strip the skin leaving it dry and exposed to environmental elements.

It also features GABA amino acid to plump the skin, soften fine lines and wrinkles, and antioxidants from crowberry, to nourish and protect against the signs of aging.

It is the perfect Natural Heavy Duty Polisher to prepare the skin for skincare treatments.

ACTIVE INGREDIENTS:

Empetrum nigrum (Crowberry) has a higher antioxidant content than many other berries, delivering nourishment to skin to help promote collagen production and protect against free radical damage and environmental pollutants that contribute to aging.

Lactobacillus/Papaya Fruit Ferment Extract contains papain, an enzyme found naturally in papaya fruit which offers natural exfoliating and brightening properties. Papain also promotes the skin's natural repairing processes, and helps protect skin against oxidative damage.

Blueberry Seeds are high in omega 3 fatty acids, which help the skin look plump, firm, and ageless. Blueberry seeds also contain valuable anti-inflammatory compounds that help manage skin conditions such as psoriasis, acne, and eczema, and Phytosterols that help increase the production of collagen, allowing the skin to repair itself.

Cranberry Seeds Cranberry Seed contains nutrients called proanthocyanidins, or PACs, an antioxidant from the Flavonoid family, reputed for its valuable benefits for the skin. Cranberry seeds also contain anti-bacterial compounds that promotes a blemish free skin.

GABA Amino Acid (also known as aminobutyric acid) is known for its naturally effective skin-smoothing properties, including the ability to diminish the appearance of fine lines and wrinkles immediately, providing a plump, glowing complexion.

Bromelain is an enzyme derived from pineapple, known for its natural and highly effective exfoliating properties. It increases cell renewal by helping to gently remove dirt, debris and dead cells trapped within pores, and promotes softer, smoother skin and a more radiant complexion.

Aesculus hippocastanum (Horse Chestnut) Extract has anti-inflammatory and antioxidant properties, which nourishes and strengthens the skin, and protect skin cells against damage caused by free radicals.
