FUNGATROL CREAM

Condition And Protect the Skin From Bacteria and Fungus

- **SUPPORT YOUR HORSE'S SKIN** – Horses are often subjected to rain, mud and scab formation on their legs. Our Fungatrol Cream supports supple healthy skin.
- **NATURAL INGREDIENTS** – A unique blend of natural ingredients including chamomile, tea tree, mineral oil, clove bud essential oil and petroleum jelly.

What are the Benefits of Fungatrol Cream?

- Protect the horse's skin from bacteria and fungus.

Ingredients:

Chamomile, Tea Tree, Mineral Oil, Clove Bud Essential Oil, Petroleum Jelly (100% pure, human grade)

Pack size: 400ml tub

Directions for use:

- The cream is ready to use. For best results apply the cream to the affected area after the legs have been washed, scabs removed, and the affected area is towel dried
- We recommend using a thin layer twice daily on the affected area. Apply a patch test prior to first use.
- For best results, first cleanse the area with diluted Fungatrol No Rinse wash, rinse and dry thoroughly, and apply a thin layer of Fungatrol Cream twice daily. Apply a patch test prior to first use.
