

MORE MUSCLE PELLETS

More Muscle Pellets supports muscle growth and development.

- Scientifically formulated to **support muscle development** during periods of intense training when muscle turnover is increased, rehabilitation work, sales preparation or in underdeveloped horses of any age.
- Contains key amino acids including lysine and leucine from high quality protein sources including whey, spirulina, linseed and soya.
- Contains important antioxidants including vitamin E and Selenium, as well as rosemary and grape extract, to **support muscle function and health**
- Contains Rice Bran to provide additional oil-based calories to **promote condition**
- Contains probiotics to **support gut health and feed utilization**
- Equine America is BETA NOPS and UFAS assured which means that full product traceability is in place, along with a quality assurance program which minimises the risk of contamination of the feed with prohibited substances and NOPS. Products are formulated to be suitable for horses competing under FEI regulations and the Rules of Racing.

What are the Benefits MORE MUSCLE Pellets?

- **Whey Protein Isolate, Spirulina, Linsed and Soya** provide a range of important essential amino acids including Lysine and Leucine, rather than using a single source to promote muscle development.
- **Antioxidants** including 1000mg **Vitamin E** and 0.25mg **Selenium**, as well as plant based antioxidants from **Grape Extract** and **Rosemary** help support muscle health in working horses.
- **Stabilized Rice Bran** provides very low starch energy from its high oil content, to support energy requirements and promote condition.
- **Probiotics** help support a healthy gut microbiome to optimize digestion and feed utilization.

Key Ingredients per 100g Serving

Lysine	2.6g	Leucine	1.2g
Vitamin E	1000mg	Selenium	0.25mg
Probiotics	2.5 x 10(10)cfu	Spirulina	5.0g
Whey Protein Isolate	2.5g	Dried Grape Extract	90mg

Nutrition

Additives per kg:

Nutritional additives/kg: Vitamins: Vitamin E (3a700) 10,000mg, Trace elements: Selenium (3b801) 2.5mg. Amino acids: Lysine hydrochloride (3.2.3.) 26,000mg, DL Methionine (3c301) 150mg. Zootechnical: Saccharomyces cerevisiae MUCL 39885 (4b1710) 2.5 x 10¹¹ cfu. Sensory additives: (Grape extract and Rosemary) 5180mg

Composition: Soya Hulls (from genetically modified sources), Maize, Rice Bran. Micronized Linseed, Soya Bean Meal (from genetically modified sources), Spirulina, Whey Powder, sodium chloride

Analytical Constituents:

Crude Protein	21.3%	Crude Fibre	14.1%
Crude Fat	9.4%	Crude Ash	6.7%
Sodium	0.3%	Lysine	2.9%
Leucine	1.2%	Methionine	0.5%

Pack size: 3kg

Directions for use:

A complementary feed for horses and ponies, to support muscle development as part of a balanced diet and exercise regime.

For 500kg horse, 100g per day (maybe divided between feeds, with at least one serve given in the first feed after exercise). Do not exceed 100g per day unless under professional advice.
