

XTRA BOOST PASTE

Support Healthy Blood Production For Horses In Hard Work, Training Or Competition

Sometimes horses and ponies need extra support particularly during a busy competition season or when they are recovering from illness and returning to work. Xtra Boost Hemogen can help maintain optimum health and performance on these occasions with high levels of B vitamins, as well as key minerals copper and safe levels of iron.

With a targeted ingredients profile, Xtra Boost Hemogen paste can be fed safely alongside a typical full competition ration.

BETA NOPS and UFAS accredited, ensuring our products do not contain prohibited substances and are suitable for horses competing under FEI regulations and the Rules of Racing.

What are the Benefits of Xtra Boost Paste?

Xtra Boost Paste help to support energy levels

- Convenient paste for horses and ponies to support energy levels during training and competition.
- Contains high levels of B vitamins for energy production.
- Includes bioavailable copper to support haemoglobin production and oxygen transport.
- In a highly palatable and easy to administer paste.

Ingredients Per 30ml Syringe
