# PECO VC115

Single-Stage Moisture Proof Thermostat

**With Cord & Plug**

## Cooling or Heating

When purchased with a 115V 8' cord, the PECO VC115 comes pre-wired for cooling. To convert to heating, follow the instructions below.

### HEATING

Wiring Instructions

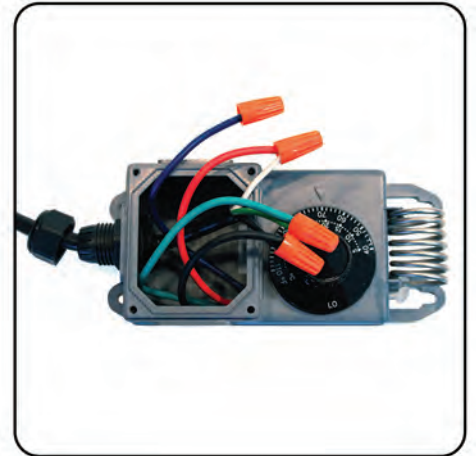

**1) Remove the 4 screws on the top panel.**

**2) This is how your wires should look.**

**3) Switch the red and blue wires.**

Switch the blue and red wires. The white and red wires should now be joined and the blue wire should be capped alone. Push the wires back into the box. Replace the panel with the 4 screws and you are ready to control your heater.
