

PAROO KANGAROO

Australia's only premium grade kangaroo meat

Paroo Kangaroo originated in the Paroo Darling region in far West NSW, an area known for its mostly untouched land and abundance of native vegetation.

Only the finest hand-picked Red Kangaroos get the Paroo approval.

What makes premium grade kangaroo meat?

After years of research and collaboration with chefs, Paroo have been able to capture perfectly balanced flavour and texture profiles. Only carefully selected wild Red Kangaroos are chosen based on seasonal conditions, water and grasses specific to each region in NSW, QLD and SA.

Kangaroo is a uniquely Australian product - it's a grass-fed traditional food. The kangaroo industry not only helps in land management but is an excellent example of conservation through sustainable use.
