

GAME BIRDS

Our passion for game birds runs deep. Co-owners Jerome and Annabelle, former game bird producers themselves, may no longer own the farm, but their dedication lives on. They've carefully selected from a group of producers committed to delivering the finest game birds.

For emu, we've forged a partnership with the world's largest emu farm, The Emu Farmers Co. Located in Northern Victoria, they are dedicated to selective breeding, with a focus on cultivating calm emu birds to ensure the production of premium-quality emu meat.

For our extensive range of Aylesbury-Cross duck cuts, dry-aged duck cuts, and corn-fed duck cuts, please refer to our separate duck flyer.
