## AUSTRALIAN FULL BLOOD WAGYU

### NEW LUXURY IN AUSTRALIAN FULL BLOOD WAGYU

MUSE is at the forefront of luxury in Australian Full Blood Wagyu. Hand selected from exemplary 100% Japanese genetics - Shima and Tajima, these cattle are fed an industry-leading specialised program. The result is Full Blood Wagyu of the highest calibre with luxurious marbling, and unparalleled tenderness, texture and creaminess.

#### 100% Japanese Genetics

Hand selected from only proven and dominant bloodlines with powerful marbling traits, all traceable back to the original Japanese National Registry.

#### Specialised Feeding Program

The core breeding herd is located in the rich pastures of Tasmania where the cattle are assisted with an industry leading feeding program for 140 - 155 days. They are then fed a bespoke program for 450 days.

#### Highest Animal Welfare

The industry-pioneering feedlot seamlessly blends traditional Japanese philosophy and expertise with modern technology, resulting in not only innovative design, but optimal environmental conditions for the cattle.

#### Superior Marbling

MB 6-7, 8-9 and 9+

Industry leading digital cameras from Japan with cutting edge software and artificial intelligence are used to verify marbling scores.
