

FARMED RABBIT

Rabbit is celebrated as a delicacy in many cuisines across the globe. From the hearty “Civet de Lapin” (rabbit stew), confit rabbit, or the indulgent rabbit rilette in France, to its popularity in flavourful hotpots in China.

Our farmed rabbits are renowned for their tender texture and mild, delicate flavour.

Rabbit meat also boasts nutritional benefits. It is not only lean but rich in essential nutrients, serving as a good source of protein, iron and B vitamins. Being low in cholesterol makes it a nutritious choice.

At Gamekeepers, our commitment to culinary excellence is unwavering. We proudly partner with expert producers known for their farming expertise in delivering high-quality game products.
