How to put on Women's Brief

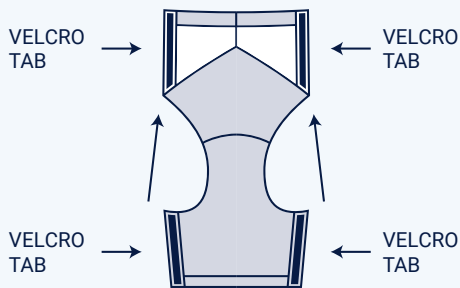

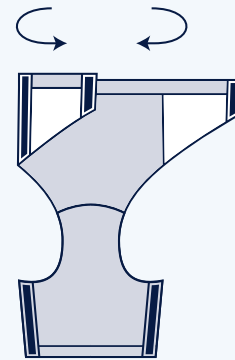

1

Unfold the UNDERCARE garment to lie flat. Locate the two ends of the waistband.

Wrap the two ends around waist, and fasten VELCRO® tabs together at the navel.

2

3

Pull front panel through the legs from back to front. Fasten VELCRO® tabs on right and left sides of front panel to matching tabs on right and left sides of wrap-around piece.

Done! Once on, UNDERCARE functions like traditional underwear. You may pull it up and down in one piece.
