8.2 CONDITIONS FOR SAFE STORAGE - STORE IN COOL TEMPERATURE AREA AWAY FROM DIRECT SUN EXPOSURE.

8.3 SPECIFIC END USE - N/A

8.4 APPROPRIATE ENGINEERING CONTROLS - KEEP AWAY FROM FOOD AND BEVERAGES.

IMMEDIATELY REMOVE ALL SOILED AND CONTAMINATED CLOTHING.

WASH HANDS BEFORE AND AFTER USAGE. AVOID CONTACT WITH EYES, SKIN, AND MOUTH.

8.5 EXPOSURE CONTROL

· **Personal protective equipment**

· **Respiratory protection:**

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

· **Protection of hands:**

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

· **Material of gloves**

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· **Penetration time of glove material:**

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· **Eye protection:**

Tightly sealed goggles

· **Environmental exposure controls:**

Control measures must be made in accordance with Community environmental protection legislation.
