## Warranty and Instruction Manual

#### Filter Queen Inc.

100-1 The East Mall, Toronto, Ontario M8Z 5X2

#### Congratulations:

You have just purchased the most efficient and up-to-date home cleaning equipment available, and joined the millions who have placed their trust in the FILTER QUEEN name.

Your new Filter Queen combines the most advanced engineering construction, maximum reliability and trouble-free long-lasting performance with graceful contemporary design. It is Manufactured in Canada in modern production facilities, using progressive manufacturing methods and techniques under a rigorous quality control program.

The following pages explain and illustrate the many home cleaning and home service features. If, and when you need any additional information or service, please refer to Filter Queen in your telephone directory. Our courteous authorized distributors are especially trained, and you will be assured of genuine Filter Queen supplies and service. Any communications addressed directly to the undersigned will receive immediate attention through the proper departments.

Filter Queen's engineers and skilled craftsmen are deservedly proud of the Filter Queen they have produced for you. We are certain that you too will be proud of its lasting beauty and fine performance, and that you will derive many years of satisfaction from its use.

Thanking you.
Yours sincerely,

Filter Queen Inc.

J.R. Skipworth, President

### Filter Queen Warranty

Filter Queen Inc. (hereinafter called the "Manufacturer") hereby warrants that your Filter Queen System has been thoroughly inspected and tested and has met all factory requirements. Contingent upon receipt at the Manufacturer's office at Toronto of the properly filled-in Warranty Registration Card, the Manufacturer hereby warrants your Filter Queen System as follows:—

The Filter Queen System, when used for normal household functions, is warranted against defects in workmanship and material for a period of two years from the date of purchase, with the exception of bristle brushes and the floor duster, which are warranted for a period of one year from date of purchase.

During the term of the above noted applicable warranty periods, any Filter Queen motor, parts, attachments or accessories when returned, transportation prepaid, to the Manufacturer (or to any of the Manufacturer's exclusively authorized Representatives), and found upon examination to be defective, will be replaced or repaired free of charge, subject only to the NO RESPONSIBILITY provisions as set out in the next paragraph. Missing parts needed to restore the Filter Queen System to normal operating condition will be charged for at current prices. Also, customer must pay return transportation charges.

NO RESPONSIBILITY under this Warranty is assumed by the Manufacturer if:—

- (1) The Filter Queen System has not been used in accordance with the instruction manual or has been subjected to abuse and/or accident.
- (2) Damage has resulted to the Filter Queen System from the use of other than genuine Filter Queen filters and parts which are available only from the Manufacturer, or its exclusively authorized representatives.
- (3) Damage to the Filter Queen System has resulted from service work done by anyone other than the Manufacturer or one of its exclusively authorized representatives.

Exclusively authorized service representatives are located in all major centres across Canada. For your nearest representative, consult the yellow pages of your telephone directory, or contact the Manufacturer at its Head Office.

NO VERBAL OR WRITTEN AGREEMENT ON THE PART OF THE SELLER OTHER THAN CONTAINED HEREIN IS VALID OR BINDING ON THE PART OF FILTER QUEEN INC.

FILTER QUEEN INC., 100-1 The East Mall, Toronto, Ontario M8Z 5X2

#### Lifetime Service Benefit

The Manufacturer agrees to replace the Filter Queen motor with a new motor any time after the expiration of the TWO YEAR WARRANTY, and as often as the original purchaser may require, on the following terms:—

- The Filter Queen must still be owned by the original purchaser, while resident anywhere in Canada only.
- The duration of this Lifetime Service Benefit is the lifetime of the original purchaser named on the Warranty Registration Card on file at the office of the Manufacturer.
- In order to take advantage of this Lifetime Service Benefit, the original purchaser must return his Filter Queen to the Manufacturer (or an exclusively authorized Filter Queen representative), transportation prepaid. Return transportation charges must also be paid by the original purchaser.
- 4. To replace the Filter Queen Motor, the original purchaser will, in no case, be charged more than \$29.50 for this service. New hose, wand sections, nozzles, brushes or other attachments or accessory equipment or parts or labour involved in the repair of these items, will be charged for at the then current prices. Any applicable provincial or other sales taxes are payable in addition to any charges above referred to.
- 5. Each new motor provided by the Manufacturer carries a two *Year* warranty from date of replacement against defects in workmanship and material. The terms and conditions of this warranty are the same as set out in paragraphs 1, 2, 3 and 4 above, except NO charge (other than transportation costs), will be made if the motor requires service within two years from the date of its replacement.
- To qualify for this Lifetime Service Benefit, the original purchaser must have used only the Manufacturer's genuine Filter Cones, (the use of substitute or imitation filters will void this warranty), and further, this original Lifetime Service Benefit must be produced.

Exclusively authorized service representatives are located in all major centres across Canada. For your nearest representative, consult the yellow pages of your telephone directory, or contact the Manufacturer at its Head Office.

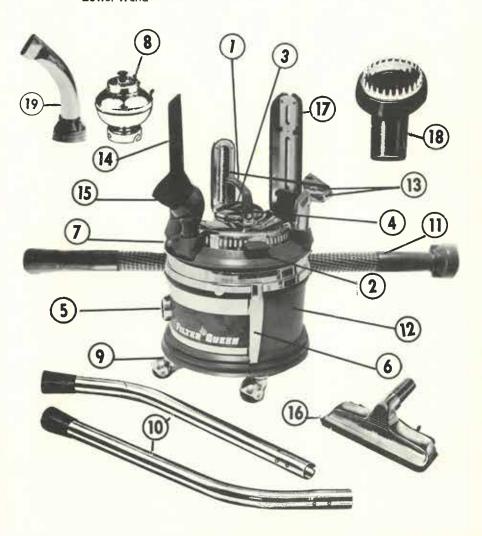

NO VERBAL OR WRITTEN AGREEMENT ON THE PART OF THE SELLER OTHER THAN CONTAINED HEREIN IS VALID OR BINDING ON THE PART OF FILTER QUEEN INC.

## THERE'S NOTHING IN THE WORLD LIKE YOUR FILTER QUEEN

#### **Asthmatics**

Doctors have found that many asthmatic conditions are caused by allergies to common household dust. In fact, house dust is capable of producing many different types of symptoms other than head colds and bronchial asthma, Many FILTER QUEEN users suffering from a dust allergy have found relief by simply operating FILTER QUEEN without any accessories.

#### Common Cold Sufferers

Here's relief from the misery of a "stuffy head" that comes with the common cold. Place a few drops of oil of eucalyptus, ephedrine — or other medicant suggested by your physician — on the Medication Ring in the Medication Chamber of your FILTER QUEEN. The relief-bringing medication will quickly penetrate the entire room.

Hay Fever Victims
Hay fever is an allergy to
the pollen of goldenrod,
ragweed, or other flowers
and weeds. Remove the
pollen from the air and
the victim of this terrible allergy stops
suffering and starts
enjoying life. Hay fever
sufferers find welcome
relief by using
FILTER QUEEN. Just
turn it on . . . let it
run . . . pollen is
filtered out of your room
at the rate of 70 cubic
feet of air per minute.

To Deodorize Rooms Use FILTER QUEEN in kitchen, bathroom or sickroom to remove unpleasant odors, Works quickly . . . efficienty ...quietly ... without any special accessories. A few drops of FQ pine Oil placed on the Medication Ring of the Medication Chamber will result in fast elimination of unpleasant odors and return a clean, pleasant pine scent into your rooms.

#### To Freshen Closets

Clothes closets often take on a stale, musty odor because air does not circulate freely. This can be overcome by opening the door of the closet, placing your FILTER QUEEN inside the closet, and letting it run for about ten minutes. A few drops of deodorant in the Medication Chamber will eliminate any musty odors.

Keep children safe from the danger of dust-laden air. Let FILTER QUEEN operate in the same room, and your children will breathe cleaner air — air that has been filtered at the amazing rate of 70 cubic feet per minute. It usually isn't necessary

To Purify Air

to operate your
FILTER QUEEN for more
than one hour at a time.

# Here is why dust and dirt cannot escape into the air...

The heart of the FILTER QUEEN System is an exclusive, scientifically-developed Filter Cone that separates dust and dirt from the air. Only filtered air is returned back into your rooms.

This Filter is composed of long cellulose fibers, chemically treated to give it necessary strength and air-filtering characteristics. So efficient is this Filter Cone that it will even remove tobacco stain from a puff of smoke!

#### Important!

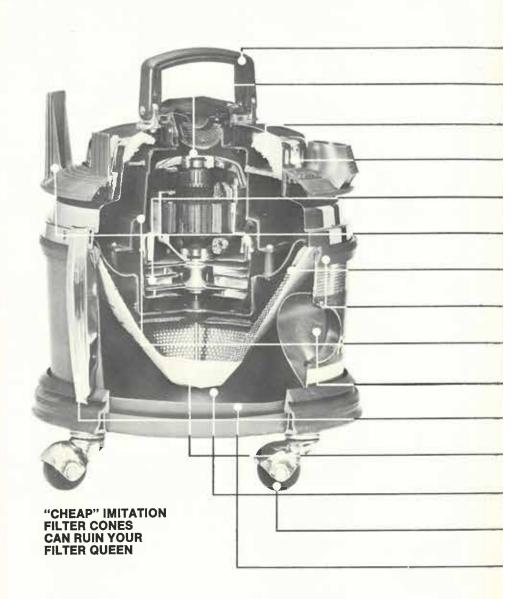

Do not operate your Filter Queen without a Filter Cone! Protect your Filter Queen Lifetime Service Benefit—Replace Filter Cone with Genuine Filter Queen Filter Cone only!

## Beware of substitutes!

Use of cheap, imitation Filter Cones will not only void your Warranty and Lifetime Service Benefit, but can cause serious damage to your Filter Queen System!

Genuine Filter Queen Cones are imprinted "Filter Queen Inc." Be sure this mark is on every Filter Cone you use in your Filter Queen.

Filter Queen is entirely new and different! inside and out

# A product of sound engineering

Exclusive Filter Queen features

NO DIRTY BAG TO EMPTY! Ends forever one of housekeeping's most
disagreeable chores.  HIGH EFFICIENCY FILTER SYSTEM!  As proven by scientific laboratory tests.
SUSTAINED SUCTION CLEANING
<ul> <li>POWER — Gives you constant peak cleaning efficiency.</li> </ul>
PATENTED SANITARY FILTER CONE — So efficient it traps the tobacco stain from a puff of smoke!
MOTOR — So quiet you can clean in the nursery, even while baby sleeps.
INCREASED FLOOR TOOL EFFICIENCY - Removes the most stubbornly-imbedded dirt and grit.
LOCK-TIGHT, SEAL-TIGHT CONNECTIONS — Positive locking joints;
all connections are sealed rubber-to-metal to prevent air and dust leakage.
POWERFUL DE-MOTHer SYSTEM — Quickly helps destroy moths, their larvae, pupa, and other forms of insect life.
TWO YEAR WARRANTY Filter Queen also carries a Lifetime Service Benefit.
ONLY GENUINE FILTER CONES ARE IMPRINTED "FILTER QUEEN INC."

#### How to assemble your Filter Queen for all suction cleaning operations

1. Attach large end of HOSE to SUCTION INLET by lining up arrow on HOSE CONNECTOR with metal pin at top of INLET ..., slide HOSE in, and lock with ¼ turn to right, 360° swivel in HOSE end prevents twisting or unlocking.

2. Assemble WANDS by connecting one straight end to the other straight end (one curved end points up, the other down). Line up locking pin on WAND with rubber button on other WAND. Push together till they lock. To disconnect WANDS press down on rubber button and pull apart.

3. Connect WANDS to HOSE by lining up locking pin on top WAND with rubber button on HOSE. Push together 'til they click. WANDS and HOSE are now locked together. To detach, press button and pull apart.

4. Put on proper accessory—
recommended on the following pages—
for the specific job you want to do.
Press the STARTER SWITCH.

# How to assemble your Filter Queen for all blowing operations

1. Remove EXHAUST CAP on top of FILTER QUEEN with quarter-turn to the left and lift off.

2. Attach large end of HOSE to BLOWER OUTLET by lining up arrow on rubber HOSE CONNECTOR with metal pins in BLOWER OUTLET...push down...lock with quarter-turn to right.

3. Attach one or both WANDS, or attach accessory to be used (depending on the type of job).

4. Press STARTER SWITCH. Follow directions depending on whether BLOWER is used for spraying, sudsing, DE-MOTHing, etc.

ALWAYS REPLACE FILTER CONE WITH GENUINE FILTER QUEEN FILTER CONE

1. Remove EXHAUST CAP on top of FILTER QUEEN with quarter-turn to the left and lift out.

2. Place a few drops of Filter Queen Oil of Pine or Oil of Eucalyptus on grey felt De-Odorizing Pad.

CAUTION: Do not use perfume or any other high-alcoholic content liquid! (Note: to replace De-Odorizing Pad simply twist clamp one-quarter turn left, insert new PAD. Replace clamp, lock in position.)

3. Close DE-ODORIZING CHAMBER by replacing CAP and locking with quarter turn to right until it clicks into place.

4. Press STARTER SWITCH. Within minutes you will notice the deodorizing effects of your FILTER QUEEN DE-ODORIZING CHAMBER throughout the room.

## How to change the filter cone

About once a month (under normal household conditions) empty your Filter Queen and replace Filter Cone.
To do this:

1. Release side clamps and lift off Filter Queen Power Unit.

2. Place 2 or 3 layers of newspaper over top of dust container (see illustration); hold tightly against container. Turn upside down so dirt and used Filter Cone are deposited on newspapers. Tap bottom of container to remove all dirt. Slowly remove container. Carefully wrap newspapers and throw away.

3. Open Filter Cone; insert point of Cone into Filter Cone locator at bottom of dust container. See that all edges of the Cone are even with rubber collar of Dust Container.

4. Replace Power Unit and lock clamps in place by pressing against Dust Container.

#### How to preserve and brighten your rugs and carpeting

Assemble Filter Queen for "Suction Cleaning" as shown on page 6; use Hose and both Wands.

Attach Rug Nozzle to lower Wand; you will hear it click into place.

To operate, hold the Wand at a comfortable angle (as shown in illustration) and move the Nozzle back and forth in slow strokes across the rug or carpet.

To clean under radiators and heavy objects: The swivel feature of your Filter Queen Rug Nozzle helps you get all the way under chairs, sofas, low pieces of furniture. Just

drop the Wand to right or left as shown in illustration.
USING THE FLOATING BRUSH:
The adjustable Floating Brush on the back of the Rug Nozzle may be raised or lowered by moving the metal tab just above the Brush, back and forth. Use Floating Brush in lowered position for picking up threads, lint, dog hair, and other stubborn litter.

CLEANING STAIRS: Remove top section of the Wand. Attach second section, with Rug Nozzle attached. Work from the bottom stair up.

PROTECT YOUR SERVICE WARRANTY—USE ONLY GENUINE FILTER CONES!

#### DON'T RUB OR SCRUB...LET FILTER QUEEN DO THE WORK!

#### Use the floor duster to keep wood floors, tile, and linoleum shiny bright

Assemble Filter Queen for Suction Cleaning as shown on page 6; attach Rug Nozzle as you would for cleaning rugs and carpeting.

Lay Floor Duster on the floor. Place Rug Nozzle over it, with front edge of Nozzle against front spring clips of Floor Duster. Then press rear edge of Rug Nozzle down to snap rear spring clips in place.

To remove "rug line" on bare floor along rug edge, lift edge of rug with your foot and insert Rug Nozzle at right angle to rug. Then run the Nozzle along the floor.

If you wish to clean a section of the rug before finishing the floor, remove Duster by tapping front edge against floor (see illustration below). Then re-assemble Duster as described above and continue cleaning bare floor.

After use, clean Floor Duster with open end of Hose (see illustration) while Filter Queen is operating. Remove Duster from Rug Nozzle and store on Attachment Holder until next use.

NEVER OPERATE YOUR FILTER QUEEN WITHOUT A GENUINE FQ FILTER CONE

#### ADJUSTABLE FLOATING BRUSH

Forward motion dislodges dirt

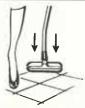

Backward motion cleans Brush

Easy to get under heavy furniture. No need for moving or lifting furniture.

Whisk off FLOOR DUSTER after each use.

Removing the FLOOR DUSTER

# Use the round brush for easy "dust-free" dusting

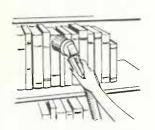

Do all your general dusting with the Round Dust Brush. Its long, soft bristles will not damage highly polished furniture or the most delicate cloth lampshades.

TO USE BRUSH: Assemble Filter Queen for "Suction Cleaning" as shown on page 6.

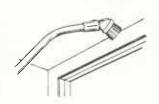

FOR GENERAL ROOM DUSTING: Attach Brush directly to Hose. Clean with gentle short strokes; do not press down hard as this will seal the opening and cut off your cleaning power. Use on tables, window sills, ledges, lampshades, statuary, woodwork, books, bookshelves, ashtrays, drawers, radio and TV grills, etc.

TO DUST HIGH MOULDINGS, DOOR JAMBS, ETC.: Use both Wands and the Round Dust Brush. To clean top of mouldings have Brush turned down. For underside of mouldings, Brush should point up.

TO CLEAN BRUSH: Run open end of Hose over bristles of Brush. (You will find this method convenient for keeping all kinds of brushes clean.) If you have been dusting grimy or very sooty surfaces, remove bristle assembly from rubber socket, wash in warm soapy water; let dry before replacing.

Book Shelves and Books

High Mouldings and Door Jambs

Venetian Blinds

Furniture Dusting

Lamps and Lamp Shades

AVOID UNNECESSARY REPAIRS— USE ONLY GENUINE FILTER QUEEN FILTER CONES

#### For those hard-to-get at places use the crevice tool

Assemble Filter Queen for "Suction Cleaning" as show on page 6.

Use Crevice Tool for removing dust and dirt behind cushions in upholstered furniture; mattress tufts and bindings; bed springs; corners of bureau drawers; radiators; any place where other attachments cannot reach.

NOTE: When cleaning radiators use Crevice Tool on Suction first. If coils are too close together, hang damp cloth or newspapers behind

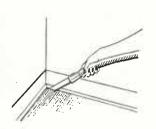

radiator, assemble Filter Queen for "Blowing Operations" (see page 6) and blow dust out onto cloth or newspaper.

OTHER USES FOR CREVICE TOOL: Assemble Filter Queen for "Blowing Operations." Use to defrost your refrigerator or freezer chest...aerate your rugs...even inflating balloons.

Radiators

#### How to use the Filter Queen massage unit\*

Assemble Filter Queen for "Suction Cleaning" as shown on page 6.

Attach Massage Unit to open end of Hose.

FOR SCALP MASSAGE: Press Starter Switch and gently rub tiny plastic teeth against scalp. Rub in several directions: up and down, sideways, and circular to promote circulation. Start from the base of neck and work upwards.

\*OPTIONAL EQUIPMENT: see your Filter Queen Dealer.

# How to give your upholstered furniture draperies and curtains a clean, new look

ASSEMBLE Filter Queen for "Suction Cleaning" as shown on page 6. CLEANING OVERSTUFFED FURNITURE, MATTRESSES, FABRICS: To remove deeply imbedded dirt in heavy fabrics, use the Six-Inch Nozzle without brush. Use the brush when the fabric is covered with threads, lint, etc.

When cleaning mattresses, upholstered furniture, clothing and other off-the-floor objects, fit the Nozzle directly on the Hose.

GOING OVER CURTAINS, DRAPES: Attach both Wands to Hose. For heavy drapes, attach Nozzle only direct to Wand. Delicate curtain material should be cleaned with the Six-Inch Nozzle and Brush. The Brush prevents the material from being drawn into the Nozzle. Slide brush on the Nozzle as shown in illustration below.

LOOK FOR THE "FILTER QUEEN" TRADEMARK ON EACH FILTER CONE YOU USE.

#### How to use your Filter Queen sprayer\* and insect control unit

Assemble FILTER QUEEN for "Blowing Operation" (see page 6), making sure inside of Hose is dust-free.†

NOTE: When using insecticide, follow directions and cautions for use on insecticide label.

Fill Sprayer jar about ¾ full. Attach Sprayer to Hose.

Shut off spray valve by turning thumb screw (on top of Sprayer) all the way to the right; then adjust the spray—fine or coarse—by gradually turning thumb screw to the left.

Press screw down to spray. Spray 10-12 inches away from object;

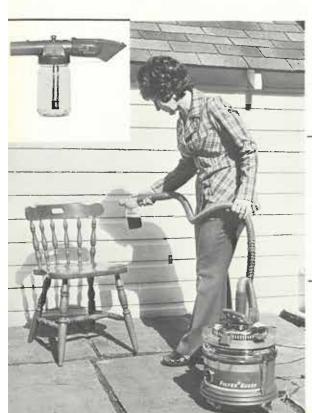

use stroking motion. To shut off spray, release pressure on screw.

After you use your Sprayer, be sure to empty and clean it thoroughly, especially the spray tip through which the spray is ejected.

NOTE: Your Sprayer jar is easily replaceable. Use any standard pint Mason jar.

†IMPORTANT: When going from "suction" operation to a "blowing" operation always clear Hose of dust and dirt FIRST! To do this connect one end of Hose to Blower Outlet; insert open end into Suction Inlet. By running the motor for a few seconds the air stream will clear Hose of dust.

\*OPTIONAL EQUIPMENT: see your Filter Queen Dealer.

Spraying Plants, Bushes, Shrubs

Insecticide Spraying

### How to use your FILTER QUEEN De-Mother with hose \*

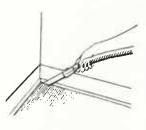

- Assemble FILTER QUEEN for "Blowing Operation" as shown on page 6.
- 2. Attach De-Mother to Blower Outlet by lining up slots with metal pins in Blower Outlet . . . push down . . . lock with quarter turn to right.
- Remove De-Mother Cap by releasing spring clip and put three tablespoons (2 ounces) of Crystals in chamber, and replace cap. Do not place more than three Tablespoons of Crystals in De-Mother at any one filling.
- \*OPTIONAL EQUIPMENT: see your Filter Queen Dealer.

- Attach hose to De-Mother Cap.
   Then attach Crevice tool to
   other end of hose.
- Aim Crevice Tool in area to be treated and start Power Unit by pressing down on foot switch.
- When through demothing, turn off Power Unit by pressing down foot switch.
- NOTE: Paradichlorobenzene odors disappear upon exposure to fresh air. It is a good idea to air out treated clothing 20-25 minutes before wearing.

Protects Upholstery

Baseboards, under rugs, etc.

#### How to use your Filter Queen Circulaire \*

TO Filter and Circulate Clean Air —

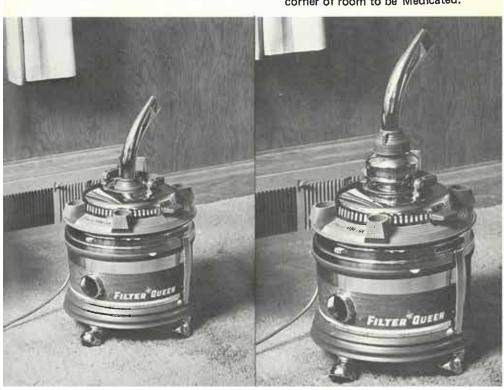

- Assemble FILTER QUEEN for "Blowing Operation" as shown on page 6.
- 2. Attach Circulaire to Blower Outlet by lining up arrow on Rubber Hose Connector with metal pins in Blower Outlet ... push down ... lock with quarter-turn to right.
- 3. Start Power Unit by pressing down foot switch.
- Point Circulaire towards corner of room. Allow 15 minutes (under normal conditions) to completely filter and circulate air in the average room.

\*OPTIONAL EQUIPMENT: see your Filter Queen Dealer

To Circulate Medication -

- 1. Assemble FILTER QUEEN for "Blowing Operation" as shown on page 6.
- 2. Attach Medication Chamber (De-Mother) to Blower Outlet by lining up slots with metal pins in blower outlet . . . push down . . . lock with quarter turn to right.
- Remove Cap from Medication Chamber. Place a small piece of sponge moistened with medication in chamber. Replace Cap.
- 4. Attach Circulaire to cap by lining up arrow on Rubber Hose Connector with Metal Pins on Cap . . . push down . . . lock with quarter-turn to right. Start Power Unit.

NOTE: Point Circulaire towards corner of room to be Medicated.

#### How to Clean or Replace the Secondary Filter

One reason for the amazing efficiency of your Filter Queen is its patented filtering action. Dust and dirt are filtered by the exclusive cellulose filter cone. If the Filter Queen is run without a filter cone or with the cone improperly installed, dust lodges on the secondary filter. If this happens the secondary filter disc must be replaced to restore full suction efficiency. In event the secondary filter is only lightly coated with dust, remove filter as shown below, carefully brush with a soft bristle brush — then replace as shown in illustration.

Please follow the instructions carefully, step by step.

Unlock the power unit and expose the cone. Now remove the nylon cone guard by taking out the screw in the bottom as shown above.

After removing the cone, the second filter is fully exposed. To remove it, pry up under cone edge and slip it out from the rubber lip holding it in place.

Place the new filter over the centre rubber grommet and push it underneath the lip of the grommet,

With the filter under the centre grommet, tuck the outside edge of the paper under the rubber ring. Be sure that the edge of the filter is under the rubber lip around its entire circumference.

Replace the nylon cone. Be sure the outer edge of the cone is seated in the rubber lip around its circumference as shown above.

Now replace the retaining screw and your FILTER QUEEN is ready for another long period of top efficiency.

### How to use your Filter Queen Suds Queen\*

Save time and money . . . shampoo rugs and carpets right in your own home!

This amazing accessory changes Liquid Soap Concentrate into dry suds that eliminate shrinkage and dries quicker. Your carpets and upholstery will come out looking fresh, bright and sanitary. It will sanitize your davenport or 9 x 12 rug for as little as \$1.25.

- Thoroughly airwash rug or davenport with your FILTER QUEEN to remove dust and grit.
- Assemble your FILTER QUEEN for "Blowing Operation" (see page 6) and make sure inside of Hose is dust-free.
- 3. Attach Sprayer Nozzle to end of Hose.
- 4. Slide and lock Sudser Head over Sprayer Nozzle.
- 5. Fill Jar % full with FILTER QUEEN Suds Solution (follow instructions on

- container) and screw into Sprayer Nozzle.
- Open Spray Valve by turning Thumb Screw (on top of Sprayer) a few turns to the left.
- 7. Start Power Unit by pressing down Foot Switch.
- Press down on Thumb Screw and Spray suds in lines about 3 inches apart over area approximately 2 feet square. Release pressure on Screw to shut off suds.
- Spread suds by using either Sponge or Soft Brush.
- When dry, airwash thoroughly using FILTER QUEEN Rug Nozzle or FILTER QUEEN Upholstery Brush.
- 11. Rinse Sudser under hot running water after use.
- CAUTION: Do not shampoo any rug, carpet or fabric that is not color fast. If in doubt, test it.
- \* Optional equipment see your FILTER QUEEN dealer.

## How to use your Filter Queen Hair Dryer\*

A beauty shop . . . right in your own home!

Dry your hair with clean, filtered air in just 20 minutes. After washing your hair and putting it up the way you like, just place the FILTER QUEEN DRYER on your head. Sit down and write a letter, do some sewing or read a book while your hair becomes clean-dry the FILTER QUEEN way. The FILTER QUEEN DRYER is safe, foolproof and cannot harm your hair or scalp. The money you save on just one beauty shop shampoo and setting can pay for this convenient and practical hair dryer.

- Assemble your FILTER QUEEN for "Blowing Operation" as shown on page 6.
- Attach Hair Dryer Adaptor to Blower Outlet by lining up arrows on Adaptor with Metal Pins in Blower Outlet . . . turn to right till snug.
- 3. Adjust Warm Air Selector to temperature desired.
- 4. Place Fashion Hood on head and tie Chin Straps.
- 5. Start Power Unit by pressing down Foot Switch.
- \* Optional equipment see your Filter Queen dealer.

#### HOW TO USE YOUR FILTER QUEEN MODEL 48 ELECTRIC POWER NOZZLE\*

This attachment sweeps rugs with an electrical-powered brush as it sucks up dust and dirt. Recommended for hard-to-clean, high-static surfaces. Comes fully equipped with wand and hose assembly.

- Connect wand to power nozzle by lining up locking pin on adaptor with rubber button on lower part of wand.
- Connect hose to wand by lining up locking pin on top of wand with rubber button on hose.
- 3. Connect together the power cords protruding from both the wand and hose.
- 4. Attach large end of hose to suction inlet of power unit by lining up arrow on hose connector with metal pin at top of inlet slide hose in, and lock with 1/4 turn to right.
- 5. Plug power cord protruding from hose into receptacle located in the front of the power unit. Now nozzle is ready for use. Press the starter switch.

The Model 50 Shag Rug Rake\* is recommended for high pile shag rugs. Comes complete with assembly instruction sheet.

\* OPTIONAL EQUIPMENT ONE (1) YEAR WARRANTY see your Filter Queen Dealer
