

AirTempo® Controls

True wireless control. A “nomadic” way to control your steam, whether installed on a wall or easily positioned on your bathroom vanity. Simply peel & stick for tool-free installation. It can even be attached to a glass shower wall.

AirTempo Control Features:

- Wall mounted, battery powered wireless control
- LCD display
- Capacitive touch panel
- 18m range from generator
- Programmable temperature
- AromaSteam Steamhead in matching finish
- RF transceiver
- Flush mount or surface mount options
- Compatibility with SteamLinX™
- 100% waterproof electronic assembly
- Powered by two CR2450 coin cell batteries (included)

The AirTempo controls are designed to be installed inside or outside the steam room but is primarily installed inside the steam room. If the control is installed inside the steam room the control must be located:

- 1.2 – 1.5m above the floor
- in a location representative of the desired steam bathing temperatures. Do not locate the control above or near the steamhead or direct steam emissions.
- on a vertical wall

The communication range of the control is 18m, the wireless receiver can be moved closer to the steam room by using a longer cable if the generator is more than 18m from the steam room or if construction materials impede the wireless signal.

If the control is installed outside the steam room a Remote Temperature Probe Part Number MST5 must be installed inside the steam room.

Box Contents:

- AirTempo
- Steamhead
- Wireless Receive
- Control Cable (1m)
- Tube of Silicone Sealant
- Owner's Manual
- Batteries
- Mounting Hardware
