- + Power & Polarity: 9 or 18V DC, center negative (standard).  
*Power supply not included. Pedal does not have a Battery slot.*

# Anvil Product Manual

**Voice & Tone:**

Voice knob boosts mid and high frequencies for more gain. Set Low for a more neutral tone, set high for a hotter, more mid focused tone. Tone knob adjusts high frequencies after clipping, allowing for a smooth or cutting tone.

**Attack:**

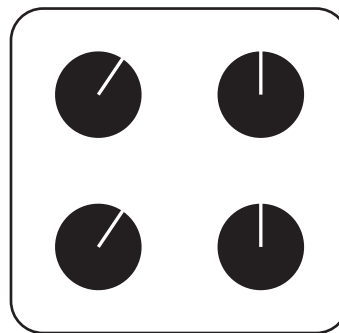

This pedal is no mask for sloppy playing. It's pinpoint sensitive which highlights the nuances of your hand work.

**Boost:**

The volume knob has a lot of room so whether you're looking to really crank up your output or keep it subtle, you're covered.

WORKS WITH 9V OR 18V DC.

Our four-year manufacturer warranty begins at the purchase. After four years the warranty has expired but you may still contact Thimble Wasp Effects for repair services and/or advice.

To begin a warranty repair order contact [info@thimblewasp.com](mailto:info@thimblewasp.com). Each pedal is subject to a basic wear and tear inspection by Thimble Wasp Effects to determine if the pedal circuitry has been altered, if the purchase date has been altered, or if the pedal has been abused beyond reasonable care. You should reference our "Reasonable Care of Your Pedals" blogpost for more information. The honoring of your warranty is subject to the opinion of the Thimble Wasp Effects warranty inspector.
