Updated November 22, 2023

A great winter boot is warm, waterproof, comfortable to walk in and offers good traction even in icy or snowy conditions. This season, we're seeing a lot of short and tall puffer boots, as well as insulated, hiking-style and lug-sole pairs, which can also be worn during transitional fall and spring weather.

Here are 14 pairs that fit the bill, many with free shipping.

Cougar Magneto Nylon Waterproof Winter Boots, \$240

Offering the perfect combination of warmth and comfort, these designed-in-Canada pull-ons will keep you comfortable in temperatures as low as -30C, thanks to 200 grams of insulation and a plush lining.

The nylon upper is waterproof, and there's a two-inch platform with a gripping rubber outsole, so you're elevated over winter slush and don't have to worry about slips and falls.
