# 16 Most Comfortable Platform Shoes for Every Occasion (Promise These Won't Let You Down!)

Go ahead, put yourself on a pedestal.

BY **BELLE BAKST** PUBLISHED: FEB 7, 2024

One thing is for sure: I love shoes with height...but you won't catch me in just any ole' pair. I need my shoes to feel like the icing on any outfit recipe—they can never feel basic. And while I prefer footwear that makes a statement, I need them to also be great for running around New York City. And no, you will not find me in a flat shoe—that's a rarity! What you will find me in are the most comfortable platform shoes in the universe. Yes, the universe! To me, no heels are more comfy than a pair of trusty platforms. What makes 'em so great is how they relieve the ball of your foot and take the pressure off the top of your toes and feet. Out of all the styles in my closet (and I have a lot of them), my platform shoes get the most wear, and are the most reliable for nights out on the town.

### This Snowboot Pair

## Cougar Meteor Metallic Nylon Snow Boots

\$180 AT NEIMAN MARCUS

These super plush snow boots aren't just cute, they mean business. Not only are they fleece-lined but they also keep you cozy even if temps dip in the negative.

**Rave Review:** *"Obsessed with these! So happy I purchased them. They keep me warm on my dog walks in freezing Colorado temps and I've had lots of compliments! They are so comfortable without looking boring like so many winter boots. 10/10 would buy again."*
