Sandal season is in full swing! Put your best foot forward in celebrity-approved styles from top Canadian brands

There's no better feeling on these warm-weather days than stepping outside in a lightweight dress, pants or favourite pair of shorts. Not only that, but it's the perfect excuse to splash out on a pedicure – which means investing in a brand-new pair of sandals to show it off!

This year, there are endless open-toed options on offer – from sleek thongs, as worn by Poppy Delevingne in Cannes, to chunky “flatforms” (a.k.a. flat platforms), which Rita Ora rocked out and about in Los Angeles.

Prefer to dress up your look? Choose gold or silver heels, like Canadian model Winnie Harlow, to complement any hue or pattern you can imagine. To keep it casual, classic espadrille wedges, as seen on Andie MacDowell, work just as well with ripped jeans as they do with a linen dress.

Whatever style lights your fire, there's a Canadian brand with a sandal you'll love. Here are just a few chic finds to put a little spring (er, summer) in your step. 🇨🇦
