Cougar Shoes Shani Leather Waterproof Boot with PrimaLoft®

\$160 at Nordstrom

"Trying to find a functional, yet trendy pair of snow boots was no easy task for me as I find most iterations to be bulky and incredibly hard to style. After months of searching, I finally came across this pair and now I'm anxiously awaiting snow for the first time in my life to break these out of their box. Think of these as your wintered Chelsea boots---they feature polar plush lining (that can withstand temps as low as -11°F), are completely waterproof, and have a thick, sturdy outsole. Snow and slush are no match for these boots."

Pros: Editor-approved; Comes in three colors; Plush lining.

Cons: No half-sizes.

Customer Review: "This boot fits the bill on every level! It looks great, feels comfortable, is super warm, and has a super sole! Ordered black and have received many compliments. Maybe another pair in olive might be in order." — Cougar Shoes
