

PURTEQ[®]

KLARIFY[™]

**GRAPHENE-ENHANCED
GLASS CLEANER**

MADE FOR TODAY'S SURFACES

Today's glass surfaces provide many advantages, including UV protection, oleophobic coatings, tints and ceramic finishes. Don't risk damage to them using yesterday's glass cleaner.

Non-toxic KLARIFY[™] Graphene-Enhanced Glass Cleaner is uniquely formulated to safely clean and maintain these advanced surfaces—so windows, windshields, whiteboards, eyeglasses, touchscreens and TVs, will always shine-on like new. It's perfect for stainless steel and granite countertops too.

KLARIFY does not contain ammonia or other toxic chemicals. It produces optical grade clarity without streaks or hazing, and builds surface protection with every use, so the more you use it the less you need it.

BENEFITS OF NATURE'S TECHNOLOGY

Powered by Graphene, KLARIFY builds a new layer of protection that repels water, oil, and harmful UV rays with each application. Graphene, the world's strongest, thinnest, and most light absorbent material makes KLARIFY keep glass cleaner, longer.

- ▶ Cleans and lubricates without streaking, hazing, or smearing
- ▶ Cuts through dirt, dust, grease, grime, and other film contaminants
- ▶ Prevents damage from bird droppings, dead bugs, tree sap, and harsh chemicals
