# Courageous Queens

Written by Angela Buckingham, Illustrated by Debora Islas

Hardback

- The follow up to the successful, Powerful Princesses
- A collection of stories all about the realities of women holding and wielding power throughout history, from all corners of the globe.
- Instead of just imparting the simple facts about these impressive women in an encyclopedic style like other volumes in the market, this book seeks to image what life was like for these women and the magnitude of the challenges they had to overcome. This is a collection of tales that allow for emotional exploration, character identification and stimulation of the imagination.

A story collection about women with power and how they used it ...

These queen stories are not fairytales for small children. They are true tales of real women that every young person should know. The clever and brave women in this collection had power and used it to achieve their goals. They would prove themselves pioneers, problem-solvers and inventors and, often, incredible leaders.

These fast-paced, action-packed tales are stories that have been lost, stories that have remained untold. The stories come from around the world and across history, but the single thing they share is that each is, in their own way, about a truly courageous queen.

## Human Kind: Gratitude

Written by Zanni Louise | Illustrated by Missy Turner

Hardback Picture book

- Goes beyond EI (emotional intelligence) to explore VI (values intelligence)
- Encourages a 'more than me' view of the world, celebrating community values as the binding agent of relationships
- Is written with warmth, charm and simplicity, and through a cast of characters explores children's everyday experiences and identifies the important role values play in good decision making
- Each book includes supporting notes for parents and carers to extend the discussion of values at home or in classrooms

- Upcoming titles in the series include Teamwork

Gratitude is noticing what you have, rather than focussing on what you don't have. Gratitude is saying thank-you. Being grateful for who you are and what you can do helps us learn.
