- Helps reduce pain, muscle tension, and stiffness

Heavy duty zipper for easy access to adjust fiber as needed.

Available From:

RELAX VIRTUALLY ANYWHERE

Help reduce pain, muscle tension, and stiffness by adding the Sleep Log™ Pillow to help you relax virtually anywhere. Ideal for those seeking support while on the go, this unique “bone” shaped pillow provides comfortable support for the head, neck, back, or between the knees. This multi-use, compact sized pillow conveniently secures to an office chair, car or truck seat, airplane seat, or most any seat; is ideal for use while traveling or at home.

The Sleep Log Pillow can be used for resting or sleeping in a sitting position or while lying down. For use while sitting, simply place the narrow center of the pillow against your neck and allow the outer edges of the pillow to gently cradle the head and neck. For use while lying down, either place the pillow between your legs to help relieve pressure on joints and promote proper spinal alignment, or place pillow behind your head and neck while sleeping.

CONVENIENT AND COMFORTABLE

Convenient pillow handles can be easily secured to your bags during travel. Use the handles along with included adjustable strap on a seat to hold pillow in place, or to help prevent the pillow from moving while sleeping. Covered with a soft, plush cover, this cushion is comfortable for everyday use.
