sleep
HAPPY

Available From:

SLEEP COMFORTABLE. SLEEP SOUND.

So many things in life are adjustable, your pillow should be adjustable too! If you're spending eight hours a night tossing and turning on a pillow that's too flat or too thick, your mind and body suffer. In reality, your unique shape and sleep position should determine your ideal pillow loft for healthy sleep posture. That's why we designed the pillow that puts you in control of how much support you need each night. You spend approximately a third of your life sleeping, make it count by choosing the best comfort and support for your body while sleeping!

The soft, clean, virgin cluster fiber does not clump or bunch, is hypoallergenic and machine washable for added convenience and easy care. The pillow will arrive overstuffed so you can easily unzip the cover to remove as much fiber as you would like. It's packaged in a reusable bag that can be used to store the fiber you've removed, so you can add fiber back in the pillow later. Simply remove or add stuffing throughout the life of your pillow to suit your size, shape, or sleep position and SLEEP HAPPY!

Stay comfortable by laying on the side featuring a layer of cooling gel memory foam. Memory foam will gently cradle and conform to the shape of the head and neck and reduce pressure to help relieve pain and soreness for a restful, restorative night's sleep. This pillow includes a premium cover that is soft and comfortable against the skin and zips open for convenient access to adjust the fiberfill. The inner liner helps contain the fiberfill, making it easy to zip and unzip the cover.

A detailed instruction card containing information on how to fluff your pillow, washing information, and suggestions on how much fluff is ideal for different sleeping positions is included with each pillow.
