## 4. FIRST AID MEASURES

### 4.1. Description of first aid measures

#### If inhaled :

Keep patient calm, remove to fresh air, seek medical attention.

#### On skin contact :

If irritation appears, remove any contaminated clothing. Wash affected areas thoroughly with soap and water.

If irritation persists or any sign of tissue damage is apparent, obtain medical advice.

#### On contact with eyes :

Immediately wash affected eyes for at least 15 minutes under running water with eyelids held open, consult an eye specialist

#### On ingestion:

Rinse mouth immediately with water. Don't drink anything. Do not intend make vomit and seek medical attention.

### 4.2. Most important symptoms and effects, both acute and delayed

None.

### 4.3. Indication of any immediate medical attention and special treatment needed.

None.

## 5. FIRE FIGHTING MEASURES

### 5.1. Extinguishing media

#### Suitable extinguishing media :

Foam or powder or CO<sub>2</sub> extinguishers. Combat the important fires with water spray or foam resistant to alcohol.

#### Unsuitable extinguishing media:

Do not use a direct water jet on the burning product.

### 5.2. Special hazards arising from the substance or mixture

As a result of combustion or thermal decomposition reactive subproducts are created (CO<sub>2</sub>, CO, NO<sub>x</sub>,...) that can become highly toxic and, consequently, can present a serious health risk

### 5.3. Advice for fire -fighters

Keep containers cool by spraying with water if exposed to fire.  
Use a self contained breathing apparatus and a combination set for the fight against fire.

## 6. ACCIDENTAL RELEASE MEASURES

### 6.1. Personal precautions, protective equipment and emergency procedures

Do not smoke. Do not expose to flame or any potential source of ignition (eg electrical equipment).  
Avoid contact with skin and inhalation of vapors. Ensure adequate ventilation of the workplace.

### 6.2. Environmental precautions

Avoid direct discharge to sewer, surface water and groundwater, not make to penetrate into the soil.

### 6.3. Methods and material for containment and cleaning up

Absorb material with inert absorbent powder or granules (sand ...)  
Major spills should be absorbed by sand or inert powder and destroyed according to applicable regulations. If rags are used to wipe up, quickly get rid of by incineration, as cases of auto-oxidation with spontaneous combustion are known.  
Clean dust with a vacuum cleaner. Wash with detergent and water.  
Reduction of gases / fumes with water projection.

### 6.4. Reference to other sections

For exposure control and personal protection measures, see section 8.  
For considerations of waste disposal, see section 13.

## 7. HANDLING AND STORAGE

### 7.1. Precautions for safe handling

Avoid contact with skin and eyes. Wear suitable gloves and eye protection. Ensure adequate ventilation of the workplace.  
Follow proper hygiene rules : do not drink, eat or smoke while handling. Do not expose to flame or any potential source of ignition.

### 7.2. Conditions for safe storage, including any incompatibilities

Store at a constant temperature in a cool, dry, ventilated area away from light, in the original containers if possible, full and sealed. Keep away from sources of ignition.  
Once opened, any container must be carefully closed and placed upright to prevent spillage.

### 7.3. Specific end use

Perfume.
