

## DATA SHEET

# ARMOR

---

**ARMOR**, unique, unmistakable, iconic design... inspired by the world of movies and sci-fi is the helmet to never go unnoticed.

The brand new and exclusive SUOMY helmet made of ADT-Advanced thermoplastic material, developed and optimized for urban and low ride use. Lightweight, ventilated, easily convertible from full face to open face, with sun visor and removable liner made with the best technologies to ensure reliability and comfort.

### SHELL

ADT-Advance Thermoplastic shell made of an injection moulded, thermoplastic resin mix with high impact resistance . ARMOR is made in 2 size shell (M and L) to ensure a perfect fit of the helmet.

### CHINGUARD

The removable chinguard is made of ADT-Advance Thermoplastic, a blend of injection-molded thermoplastic resins and is internally lined with fabric.

The hooking system is equipped with two side buttons for easy and intuitive assembly.

### SUN VISOR

The integrated sun visor is easily operated thanks to a side control integrated into the helmet edge. Sun visor is Anti scratch

### VENTILATION

The top air intakes on the external shell allow an optimal ventilation of air flow intake into the helmet. The chinguard has an easily operated flow partialization system.

### INNERS

The interiors and comfort pads are removable, washable and replaceable and have the following features:

- Easy outflow of body moisture
- Keep the correct temperature
- Light fabric, soft and breathable
- Cheek pads ready for Bluetooth earphone
- Predisposition for glasses

### RETENTION SYSTEM

The retention system has a micrometric buckle made of metal and acetal resin
