

# ASSEMBLY & INSTRUCTIONS

While this product may at first look difficult to install (similar to assembling a product from a certain large Swedish furniture store), we assure you setup and disassembly is a breeze!

## Assembly Guide - 3 Easy Steps

1) Attach poles with connectors as shown.

2) Place frame into the bottom square of the spa tent.  
Insert the included sweat liner.

3) Lift the top of spa tent over the frame (it will be snug!)  
and zip both of the zippers around the frame.

## Instructions and Manual

In order to give you the most up to date information, we have moved our official user manual online!
