

For all your garden luxuries...

### **Base Plate Fixing Kit.**

The base plate fixing kit is required if you are fixing down onto decking, concrete, slabs or any other hard surface, other means are available of doing this but this is the most cost effective and easy way in our opinion, just simply select no kit when ordering if you have another way of securing the posts to the ground

- The base plates are fixed to the bottom of posts with 4no 3” silver screws supplied with kit

If you are unsure or need guidance, please contact us either via email on [info@layzeeliving.co.uk](mailto:info@layzeeliving.co.uk) or via telephone on 02078673959.
