

CUSTOMIZED PACKAGING

At Krakakoa, we believe that some of the best quality products in the world can be produced right here in Indonesia. We believe that farmers need to make a good living from the hard work that they do. We believe that the environment needs to be protected while we pursue economic development. And we believe manufacturing and processing is an important contributor to economic growth. Our mission is to put our beliefs into action and change the way food production systems impact people and the planet, starting with cocoa.

Our cacao beans are organically-grown and sourced from small farms that practice sustainable farming methods, and our partner farmers are paid more than the Fairtrade Minimum price for their harvest.

Indulge in the unique flavours and seductive aromas of Indonesia with our organically grown, farmer-to-bar chocolate products, made with passion and purpose.
