

MAINTENANCE PROCEDURES

Thank you for choosing Unik Stone. We hope that our products will meet your expectations.

If you have any questions or need any additional informations, please do not hesitate to contact us directly at www.unikstone.ca, info@unikstone.ca or 514 316.8196.

In order to preserve the quality and condition of your Unik Stone's products, we suggest you follow these steps :

FOR NATURAL STONE

1. STONE SEAL

Unik Stone's stones are supplied without treatment. It is therefore imperative to treat the stone once before use and subsequently repeat the action every year. To do this, we suggest using the sealer provided by Unik Stone¹, this product is designed to protect and waterproof natural stones and thus preserve its appearance and their condition. Using a dry cloth, apply a coat of sealer on the entire surface of the natural stone². Let it stand for 4-5 minutes then immediately wipe the treated surface with paper towels. Remove completely any of the remaining sealant.

IT IS IMPORTANT NOT TO WAIT MORE THAN 5 MINUTES BEFORE WIPING OFF THE SEALER.
Wait a few hours and then repeat the operation a second time³.

2. DAILY MAINTENANCE OF STONE

Clean the stone daily with mild soap and a damp cloth (e.g. hand soap, dish soap).

ATTENTION. Avoid contacting the stone with any acidic products (i.e. liquids or cleansers). Read the labels on your cleaning products before applying on the stone. Products like "CLR" should be avoided. Do not use an abrasive or acetone or varnish or paint remover or detergent on the stone. Avoid regular contact with a heat source (radiator, window).

In the case of an alteration of the stone due to mistreatment, directly contact Unik Stone or your Unik Stone's dealer to know the procedures and products that are available to restore the stone.

FOR WOODEN FURNITURE

Unik Stone's wood furniture comes with a clear surface treatment. Your furniture is protected against splashing water. We still suggest to wipe up spills immediately to prevent water damage. Like all solid oak furniture, it will be necessary to repeat the treatment with a varnish compliant with the frequency of use of the furniture.

KEEP IN TOUCH

To learn more about our products and to see news from us, subscribe to our newsletter and visit www.unikstone.ca. Follow us on our Facebook page.

1- This product is available directly from Unik Stone or from your dealer.

2- In case of doubt, test the product on a inconspicuous area.

3- The use of sealer must be adapted to local conditions and to the surface to be treated.

Unik Stone reserves the right to make changes without notice. For the latest update, see www.unikstone.ca.
