OBJECT NON ORDINAIRE

"I tell the story of reinventing the ordinary and creating the non-existent through every object I make"

ABOUT ME

Originally from Iran, LAVI was my family's name before my father immigrated to Panama in 1948 and we became LEVY.

I was born in 1962 in Panama City. My life has always revolved around creativity and trespassing the limits of the uncommon. A mother of 6, I use my passion for art to reinvent the ordinary and transform the world around me, featuring a hint of rebellion and persistence for creating the non-existent. My style encourages limitless interpretation that flows and embodies the urgency of my imagination.

My craft lies in the notion of what is and what can be, seeking its point of contact to create an alternate reality as an inspiration for my art. Every object tells a story of life, passion and curiosity for the unknown. I long to shift the perception of ceramics, be it a functional artifact or a mind-blowing sculpture; my modus operandi is based on improvisation and with every new piece a different story unfolds making a valuable contribution to the all-encompassing dimension of art.

“THE MELTED SERIES II”

You wouldn't know it by just looking at it, but every piece of The Melted Series reveals a tale of a lifetime. Each feature speaks of a moment in time, be it the golden details that link us to our origins with a classical touch of elegance, the concrete body that reminds us of the rawness of hardships and the rustic charms that make life worth living, or the modern plexiglass that places you in the here and now. It cuts through the illusion of time, transcending the past, the present and the journey in between.

“THE MUG”

Inspired by the pleasure of having a good cup of coffee first thing in the morning. The feeling of being in control as you plan the day ahead and that rush of energy that makes you feel capable of handling anything that comes your way.

For the #LaviMug we paired functionality with a mix of modern and classic accents, embellishing each piece with a detail of its own.

“THE JEANNE”

Inspiration for #TheJeanne came at the perfect time, while sharing breakfast with a friend at my favorite place on earth. We wanted to enhance the art of drinking Iced Coffee. We aimed to relish the feeling of comfort. The warmth of your grandmother’s house. The coziness you cling to on a rainy day. That voice at the back of your head that wishes to turn your vacation into a staycation.

“LAVILOONS”

Inspired by the memories that keep us going long after they are gone. It may be cherished time with our loved ones, a long-awaited vacation or those all-encompassing moments of pure magic we know we will forever keep, even as we live them.

The golden details are there to remind us that the world is not as it is, but as we are. Our memories are treasured not because of what happened, but because of what we remember. Beauty and happiness are indeed in the eye of the beholder.

“EL MARAÑÓN”

When I tried to replicate Panama's essence in a statement piece, cashews immediately came to mind, best known in Panama as Pepitas de Marañón. It brings back memories of my childhood, of summers well spent, playing alongside the river and surrounded by horses. This piece symbolizes our Panamanian culture and our people's warmth.

“THE RIO”

Inspired by that friend who has always been there. The one you can't imagine your life without. The Rio is that pop of color in your everyday life.

For this collection we paired the feeling of familiarity and comfort of our childhood memories with a touch of luxury, relishing the standard of fondness and deluxe.

“THE CONCRETE SERIES”

This series symbolizes the foundations of our lives. The pillars that hold us in place, while nature and nurture meet halfway to show us our journey, revealing our true inner selves. Stability and authenticity light the way as a beacon of unconditional support, giving us the freedom to flourish and become whatever we choose to be; always counting on those fundamental structures to lean on and go back to, as we reinvent ourselves.

“THE DONUT SERIES”

The Donut embodies the sweet side of life. The feeling of good news when you're already having a great day. Getting an upgrade to First Class on your next flight. Winning the lottery. Bringing your new baby home. Sharing a bottle of wine and laughing till it hurts with the people you love the most.

With the #LaviDonut we transformed celebration into an #NonOrdinaire affair.

”MOUNTENNIS”

Love may mean nothing in Tennis, but it's the ethos of #cestlavi.

It's the feeling we get when we are seconds away from the match point, knowing there is no place we'd rather be. It's the pride in our ace. The relief after a drop shot. It's the excitement in our eyes as we watch the impossible happen in every single match.

Inspired by the grace of Wimbledon, the poise of its champions and the warmth of the moments we live for.

"RIMON"

An ancient fruit, the pomegranate, has symbolized different things for different cultures in different eras. For me, it is a symbol of abundance and prosperity. It represents the riches in every aspect of our lives and being grateful for every blessing that comes our way. Abundance is not something you have, it's something you are. I believe abundance is a mindset.

In Ancient Hebrew, LAVI means LIONESS. As it is written in the Bible in the Book of Bamidbar: "Behold, a people that rises like a lioness".
