'Smoke & Tears' is a collaborative version of our Sweet Mango Heat. [Smoke & Tears Hot Sauce Co.](#) put together a top secret blend of peppers to bring the heat to our sour mango ale. Mango is saturated on the nose and palate but gives way to a gentle rolling heat. A warming sensation builds with every sip and is balanced with just the right amount of sweetness and acidity.

Bonus Collab: Make sure to snag a bottle of [Tears for Beers](#) hot sauce! Smoke & Tears used our Augustus Gloop stout recipe as a base to add smoked habaneros, spices, caramelized onions and secrets. This is a big and bold sauce that shape shifts between BBQ and hot sauce. Expect funky spices, rich sweetness and rolling heat. This product is small batch, vegetarian, nut and dairy free.
