

I spy with my little eye...

...something grey
...something you can find at the beach
...something you can fit in your pocket
...something that begins with the letter
sound "Cc"

I spy with my little eye...

...something brown
...something square-shaped
...something that is cold
...something that begins with the letter sound "Bb"

I spy with my little eye...

...something blue
...something round
...something that digs
...something that begins with the letter
sound "L"
