## UAV Protection, Storage, and Transport

### K424 XC

Roller case with integrated handle and optional off-road wheel kit

### K470 PLUS

Two-part hood and base case system for easy access

### K470

The classic ZARGES case since 1950 offers IP 54 protection standard, available with IP 65 or IP 67

### K475

Rugged and water-tight for the most demanding applications

## → ZARGES Quality Advantages

Edge, face and lid profile frame

Load-bearing lid strap

Continuous foam lid seal

Ergonomic comfort sprung drop handle

Stacking corners

Durable C. fasteners for at least 20K operating cycles

Stainless steel hinges

Additional bracing on some larger units

All riveted joints, except for spot-welded seam

High strength, smooth welding points. Gap-free load-bearing overlap joint

Continuous beading and corner beading, depending on size

High performance flash butt welding process

## → Why Aluminum is Superior to Plastic

Extremely lightweight, very high strength to weight ratio.

Easy to customize and maintain finishes. 100% Recyclable.

Magnetically neutral, excellent conductor of electricity and heat.

High temperature range without deforming (-238° to 302°F).

Impervious to UV, weather, wind, rain, water and corrosion.

Very strong, resistant to shattering upon impact.

## → Key Features:

- High-quality aluminum universal cases
- Rugged fully welded profile frame
- Lid latches can be secured with a plug lock, lead seals, or a padlock (max. shackle thickness .25")
- Ergonomic spring handles automatically stow for safe shipping
- Many standard sizes to choose from
- Custom sizes and custom foam inserts available
- Available as IP 54, IP 65 or IP 67. UN Hazmat Certification available
- Many accessories

## → Key Advantages:

- **Size:** ZARGES is a market leader with more usable internal volume per cubic foot and our cases are easily stackable
- **Weight:** Aluminum delivers excellent durability and weight savings in a smaller footprint
- **Impervious to elements:** Case withstands temperature range of -238° to 302° F; UV, water, weather and corrosion resistance
- **Durability:** Will not warp or crack
- **Shielding:** EMI & RF protection
- **Customization:** Foam, finishes, sizes

## → Designed to Meet:

- MIL-STD-810
- MIL-STD-461
- ATA 300 (Category I)
- DIN EN 60 529

ZARGES has nearly a century of experience protecting valuables the world over with its exceptional aluminum cases and rack mount systems. Saving weight and space is critical in logistics and nothing performs better than aluminum and nobody does aluminum better than ZARGES. Aluminum is not affected by the elements like plastics and other composite materials. Wherever the mission, whatever the challenge... you can count on the durability of ZARGES® quality aluminum cases to exceed the need.
