

→ Key Features:

- Optimum mobility through integrated 2" casters and pull-out handle (SKUs 41810-41814) or second sprung drop handle on the end face (SKU 41815).
- Extremely smooth-running due to special 2" diameter casters, made from polyurethane and polyamide.
- Stackability guaranteed via stacking corners made from impact-resistant plastic and integrated stacking elements in the support frame. May also be stacked with ZARGES K470 and K440 series cases.
- High load-bearing capacity of up to 110 lbs.
- Removable base insert made from abrasion-resistant PE foam included.
- Beading all round and corner beads for additional dimensional stability.
- Fitted with sturdy lid holding straps.
- Features ZARGES Comfort fasteners with extremely long service life, fitted with plug locks.
- A wide range of adjustable interior fittings ensure versatility.
- Optional 5" wheel set or 8 2/3" off-road set available for use in difficult terrain.
- The K424 XC series includes 6 models with a capacity ranging from 1709 to 11,900 cu in.
- Full Equipment version includes Lid Pocket, Removable Inner Liner and 5" wheel set at a 15% discount over individual purchase (SKUs 41816 & 41817)

→ Designed to Meet:

- MIL-STD-810
- MIL-STD-461
- ATA 300 (Category I)
- DIN EN 60 529

→ Key Benefits:

- **Size:** ZARGES is a market leader with more usable internal volume per cubic foot and is easily stackable
- **Weight:** Aluminum delivers excellent durability and weight savings in a smaller footprint
- **Impervious to elements:** Case withstands temperature range of -238° to 302° F; UV, water, weather and corrosion resistance
- Will not warp or crack
- Provides maximum EMI & RF protection
- Available in custom sizes

→ Target Applications:

- Sciences & Medical
- Sports
- Military & Firearms
- Public Safety
- Energy & Utilities
- Trade & Craftspeople
- Travel
- Overland & Expeditions

Your indispensable companion for life's adventures

Stacking corners
Shock-resistant plastic and integrated stacking elements to ensure stackability

ZARGES Comfort sprung drop handle
Ergonomically shaped and extremely durable

Made of aluminium
Despite the low weight, high load-bearing capacity of up to 110 lbs.

Telescopic handle
Integrated pull-out handle for increased mobility

ZARGES Comfort fastener
Extremely long service life, equipped with plug locks

Optional support
Folds out, included in the off-road set

Peripheral beads and corner beads
For additional dimensional stability

Stacking elements
For optimum stackability

Standard 2" wheels
Optimum mobility via special wheels made from polyurethane and polyamide

Off-road 8 2/3" wheel set with support
All-terrain wheels for unlimited mobility on all surfaces

Optional 5" wheel set
Extra-large additional wheels for increased ground clearance

Other Accessories

- Removable Inner Liner**
- Lid Pocket**
- Tool Pocket**
- Attaché insert**

→ Why Aluminum is Superior to Plastic

	<p>Extremely lightweight, very high strength to weight ratio.</p>		<p>Easy to customize and maintain finishes. 100% Recyclable.</p>		<p>Magnetically neutral, excellent conductor of electricity and heat.</p>
	<p>High temperature range without deforming (-238° to 302°F).</p>		<p>Impervious to UV, weather, wind, rain, water and corrosion.</p>		<p>Very strong, resistant to shattering upon impact.</p>

ZARGES has nearly a century of experience protecting valuables the world over with its exceptional aluminum cases and rack mount systems. Saving weight and space is critical in logistics and nothing performs better than aluminum and nobody does aluminum better than ZARGES. Aluminum is not affected by the elements like plastics and other composite materials. Wherever the mission, whatever the challenge... you can count on the durability of ZARGES® quality aluminum cases to exceed the need.
