

Adapt Wing Purposes

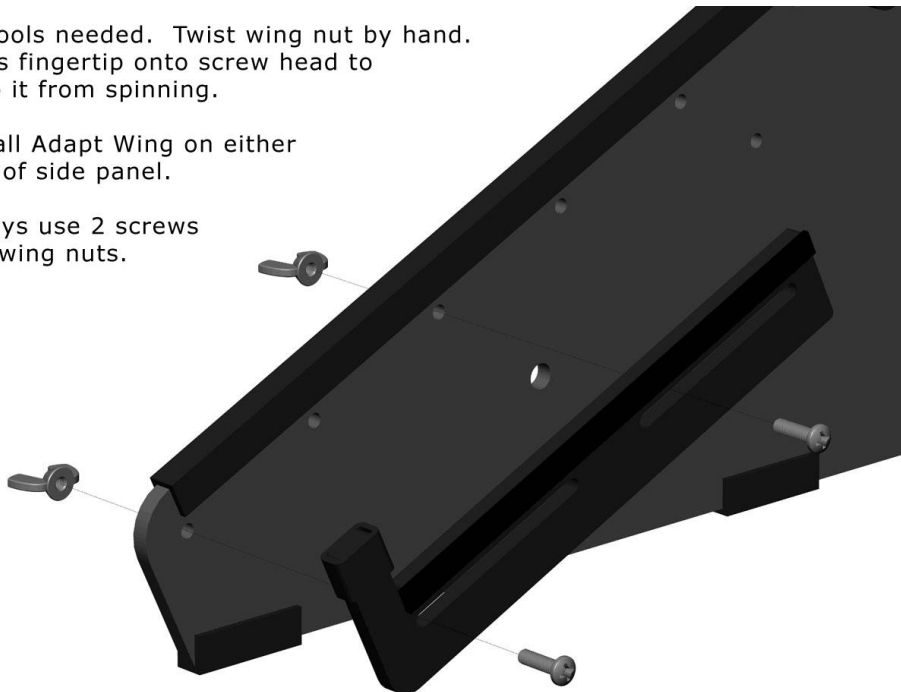

Adapt Wing Installation

No tools needed. Twist wing nut by hand.
Press fingertip onto screw head to keep it from spinning.

Install Adapt Wing on either side of side panel.

Always use 2 screws and wing nuts.

Adapt Wing Location & Orientation

Arrange the Adapt Wings to match one or more of the optional positions for a stand in the image below, ensuring that the tabs are pointed in the direction shown. For each Adapt Wing, use two holes in the stand's side panels.
