- 2. Put the blade rod support on the drive shaft in the middle of the bowl and press it to the bottom.
- 3. Fix the Juicer filter plate on to the bowl lock it in place at the handle.
- 4. Put the juicer cone on the blade rod as shown in diagram no. 10.
- 5. Run the motor unit on speed 1 only.
- 6. Cut the citrus fruit in half and then push down the fruit slowly on to the juice cone as shown in the diagram no.12.
- 7. Run the motor on pulse mode momentary.
- 8. When the operation is finished turn the switch knob to the "0" position. After the cone stops completely, pour the juice out as shown in diagram no. 13.

HOME APPLIANCES WARRANTY CARD WARRANTY CONDITIONS & SERVICE PROCEDURE

Please preserve this warranty card and the cash memo and ensure that it is duly stamped (with the date stamped) and signed by the dealer. A warranty card or cash memo which is not stamped and signed by the dealer will be treated as invalid.

Kindly ensure you post the half portion of the warranty card, to Rico Head office or update your details on our website www.ricoappliances.com

Conditions of the Warranty :-

Your Rico product is warranted against manufacturing defects for 12 months from the date of purchase. The product is warranted against manufacturing defects only. This product is designed for domestic use only.

This warranty does not apply to

- Normal Wear and tear of parts or surface coating.
- Faults which may be due to wrong usage, faulty handling, damage in transit, usage of spurious parts, neglect or accident are not covered by this warranty.
- Damages resulting from accidents, mishandling or negligence on the part of the customer and fluctuation in supply voltage.
- Surface Coating, body aesthetics, plastic parts, neon lamps, bakelite parts, rubber/nylon parts, push buttons & bulb.

PART LIST:

- Pusher
- 2. Bowl Cover (Plastic)
- 3. Slicing Blade
- 4. Shredding Blade
- 5. Flat Blade support Disc
- 6. Kneading / Whisking Blade
- 7. Chopping Blade
- 8. Juicer Cone
- 9. Filter Plate
- 10. Blade Rod support
- 11. Mixing Bowl
- 12. Motor Unit

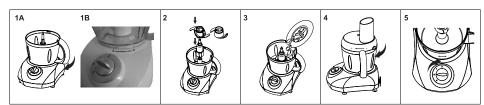

GENERAL OPERATING PRECAUTIONS

- 1. Before switching on, please make sure that the appliance is connected to a 3 pin, 5 Amp.- 230 Volts AC socket
- 2. Do not use wet hands while operating the appliance. Do not immerse the base/motor unit plug or cord in water or any other liquid.
- 3. Switch off the appliance and unplug the cord whenever handling any parts / attachments, before cleaning and when not in use.
- 4. Do not fix any of the attachments when the appliance is ON. Please also make sure that the base of the attachment to be used, fits properly in the top casing of the base unit.
- 5. Never run the motor unit without the attachment and its cover in place. Wash the attachments thoroughly, before first use and after each use.
- 6. Do not keep the base unit on any cloth / paper while running it, as this may stop the flow of air, from the bottom of the mixer to the motor, resulting in overheating of the motor.
- 7. Do get the Rico serviced from our authorised service centres at least once a year. Keep the appliance away from children.

- 8. This appliance cannot be used in a microwave.
- 9. If the Supply Cord is damaged then it must be replaced by Rico's authorised service centre immediately.
- 10. Do not run the appliance for more than 3 minutes continuously. After running for 3 minutes let it rest for 12 minutes and then use again.
- 11. Do not add food more than the maximum marking level.

OPERATIONS:

CHOPPING FUNCTION

- 1. Place the plastic bowl on the motor unit. Align the arrow mark on the plastic bowl with the arrow mark on the motor unit. Once the two arrows are aligned, turn the handle in a clockwise direction till it locks in place as shown in diagram no.1A & 1B.
- 2. Put the blade rod support on the drive shaft in the middle of the bowl and press it to the bottom.
- 3. Fix the chopping blade on to the blade rod support as shown in the diagram no. 2
- 4. Big pieces of food need to be cut into small pieces having a maximum size of 2 cm x 2 cm x 2 cm.
- 5. Put the cover on the bowl, align on the arrow marking on the bowl with the arrow mark on the cover and turn it in a clockwise direction till it locks in place as shown in diagram no. 4
- 6. Insert the plug into the electric socket and turn on the power unit to the speed required as shown in diagram no. 5.
- 7. When the operation is finished turn the switch knob to the "0" position. After the blade stops completely, pour the food out.

KNEADING / WHISKING FUNCTION

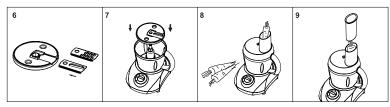

- 1. Place the plastic bowl on the motor unit. Align the arrow mark on the plastic bowl with the arrow mark on the motor unit. Once the two arrows are aligned, turn the handle in a clockwise direction till it locks in place as shown in diagram no.1A & 1B.
- 2. Put the blade rod support on the drive shaft in the middle of the bowl and press it to the bottom.
- 3. Fix the Kneading blade on to the blade rod support as shown in the diagram no. 2

- 4. Pour the flour to be kneaded minimum 150 grams, maximum 250 grams in to the bowl. Ratio of the water & atta should be approximately 1: 2 depending upon the flour to be use.
- 5. Put the cover on the bowl, align on the arrow marking on the bowl with the arrow mark on the cover and turn it in a clockwise direction till it locks in place as shown in diagram no. 4
- 6. Insert the plug into the electric socket and turn on the power unit to the speed required as given in the chart below.
- 7. Slowly start pouring water through the bowl cover while the power unit is ON.
- 8. The flour with slowly turn into small bowls and then will become 1 big bowl within 2 minutes of running.
- 9. Do not knead the dough more then this or it will get mashed.
- 10. When the operation is finished turn the switch knob to the "0" position. After the blade stops completely, Take out the dough and roll it into a bowl..

Function	Speed
