ABOUT US

INV Tech Services, LLC is a 100% veteran owned and operated, certified, Service-Disabled Veteran-Owned Small Business (SDVOSB), by the Department of Veterans Affairs. INV Tech Services, LLC specializes in firearms range training products, targets, tactical equipment, tools, medical supplies, Personal Protective Equipment (PPE), range maintenance equipment, specialty kits and supplies along with UAV/UAS products and support gear to the Department of Defense, Department of Homeland Security, Department of Justice, Department of Veterans Affairs and many other federal, state and local MIL/LE customers. We operate with a determined mission, attention-to-detail, and we produce results that make the solicitation and procurement process, planning, inspection and delivery, a seamless operation for every contracting command, buyer, or agency.

Our core capacity is the effective management and delivery of every contract to meet the critical and essential needs of the military and law enforcement. Our tools, personnel, supply chain and logistics resources, consistently deliver successful results to meet the need, demand and objective of every project or operation. Our expertise is in developing the strategic plan, implementing that plan and the effective deployment of resources. We demand from our staff, management and partners; contract compliance, ethical behavior, quality control of contract requirements and prompt payment to vendors and subcontractors. Every project we are successfully awarded, we expect and demand upon ourselves to exceed every agency, department or Governmental expectations.

CORE COMPETENCIES

- INV Tech Services, LLC focuses on developing and evolving products lines that are manufactured in the United States and support networks that can deliver consistent high-quality customer support.
- We bring an efficiently and effective strategic plan to the forefront of any proposal, procurement, delivery, or manufacturing process.
- Our highly experienced team unites in the core principle of reliability. We do what we say, we are always reachable and available, and we consistently exceed our customer, and their expectation.

OUR STRENGTHS

- Solidified capital funding sources, partnerships and credit lines for operations, product purchase and production.
- Financial stability, strong cash flow, and multiple current contracts with Department of Defense, Defense Logistics Agency, Department of Homeland Security, Department of Veterans Affairs and Department of Justice.
- Consistently high ratings in SPRS, CPARS & FAPIIS with DOD/ DLA with high confidence throughout the United States Government on reliability.

Our mission for success doesn't just include the bottom line. Our staff, partners and ownership fundamentally understand that each and every delivery we undertake for the United States Military, Federal Agency or Law Enforcement department, ultimately means that our products, supplies, or equipment go directly to our soldiers, medical professionals, agents and law enforcement personnel. This is why we do what we do with pride, detail, accountability and oversight. Our brothers and sisters depend on it.

- Organized, Precise and Detailed Documentation, Follow Through and On-Time Delivery.
- Premium Product Lines to Support Ever Changing Environments and Missions.
- USA Made, Berry Compliant Products to Meet FAR/DFARS & MILSPEC, Contract Compliance.
- Outstanding customer service with dedicated team support for delivery on mission critical objectives.
