

Squirrel Baffle

Bird Feeder Defender

Baffle those pesky squirrels from eating all the food in your hanging bird feeders with this attractive heavy duty metal Squirrel Baffle. Hang from a tree over your feeder, it will also give some protection to the food from intense weather conditions.

Unlike other all-plastic baffles, this flower-shaped powder-coated weather shield metal baffle makes for an attractive addition to any garden. Ensure the baffle is positioned far enough away that the squirrel can't jump onto the feeder from the ground or side.

- Deters squirrels from eating all the bird food in your hanging garden bird feeders
- Provides protection to food from intense weather conditions
- Easy to assemble and fits majority of hanging feeders
- UK designed and made from heavy-duty powder coated weathershield metal, so built to last
- Attractive addition to your garden
