

Rubber Seed Trays

Made from Fairtrade, sustainable and FSC® certified natural rubber, our plastic free seed trays are a great addition to your potting shed and will save you money over time.

From our Plastic Free Gardening range, these durable rubber seed trays are flexible, making seedlings easy to remove to plant on, unlike plastic trays that often split or crack. Sourced from a small sustainable plantation in Sri Lanka, the workers receive a Fairtrade premium to help improve their living conditions.

-  Sustainable, environmentally friendly alternative to plastic
-  Reusable, robust, flexible and long lasting
-  Fairtrade FSC certified natural rubber
-  Ideal for seeds, seedlings, and cuttings
-  Available in various sizes

We Care For Nature!
