

YOUR AT HOME RING SIZING GUIDE

YOUR SIZING GUIDE

Finding the perfect ring size is essential for a comfortable and secure fit. While visiting a local jeweler for an accurate measurement is ideal, we understand that current circumstances may make it challenging to do so.

That's why we've created this comprehensive guide to help you measure your ring size from the comfort of your home.

Our step-by-step instructions and handy tips will ensure that you get the precise ring size you need. Whether you're shopping for yourself or selecting a gift, having the correct ring size is critical to enjoying your jewelry to the fullest.

With our guide, you can confidently specify your ring size when ordering from Steel Magnolia, ensuring that your new piece fits perfectly from the moment you put it on. Let's get started on finding your ideal ring size!

WHAT YOU NEED TO KNOW

At Steel Magnolia Jewellery, we use the British sizing system, which is based on alphabetical letters ranging from G to Z for measurements.

To make ordering easier, please refer to the following breakdown of sizes:

WOMEN'S SIZE

- X-Small (G to J)
- Small (K to N)
- Medium (O to S)
- Large (T to W)
- X-Large (X to Z)

MEN'S SIZE

- Small (O to Q)
- Medium (R to T)
- Large (U to W)
- X-Large (X to Z)

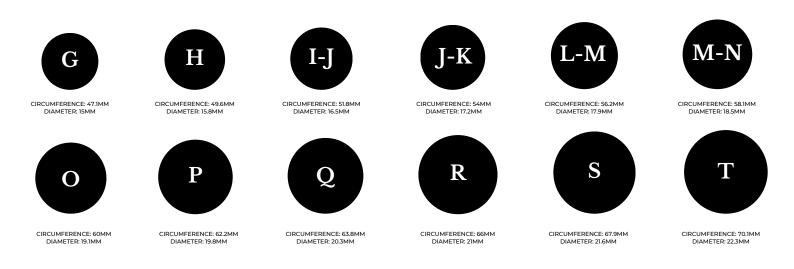

HOW TO MEASURE YOUR RING SIZE

Before printing, ensure this guide is set to print at 100% 85.6mm scale and that you are printing on standard A4 paper (210mm x 297mm). If you are unsure as to whether you have printed the correct size, or if you are measuring on a screen, place a credit card on the guide.

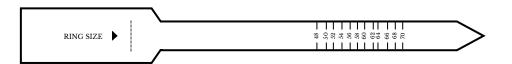

METHOD 1

Utilizing an existing ring is a convenient method for determining your ring size. Align the inside of your ring with one of the circles provided below. Ensure that only the black circle inside your ring is visible, with minimal white paper showing.

METHOD 2

Once you have cut out the ruler, snip along the line to create an opening. Position the ruler around your finger so that the numbers are visible. The number nearest to the opening indicates your ring size. Test the fit by sliding the ruler over your knuckle; we suggest choosing a size that slips on and off comfortably. Keep in mind that the ring size might slightly differ depending on the ring design.

SIZING TIPS

- 1. Measure Multiple Times: If possible, measure your ring size at different times of the day as fingers can swell slightly, affecting the size.
- 2. Consider Temperature: Your fingers can shrink or expand with temperature changes, so take this into account when measuring.
- **3.**Use a Comfortable Fit: Aim for a ring size that feels snug but not too tight. It should slide over your knuckle without difficulty.
- 4. Account for Ring Width: Keep in mind that wider rings will fit tighter than narrow ones. Adjust your size accordingly based on the ring's width.
- **5.**Test Movement: Ensure that your ring allows for comfortable movement of your finger without being too loose or tight.
- **6.**Check for Resizing Policies: Familiarize yourself with our resizing policies in case adjustments are needed later on.
- 7. Consider Finger Shape: Finger shapes can vary, so if you have wider or narrower fingers, you may need to adjust your size accordingly.
- **8.**Consult a Professional: If you're unsure about your ring size, consider visiting a jeweler for a professional measurement.
- **9.**Trial and Error: If ordering online, consider ordering a few sizes close to your measurement to try on and determine the best fit.
