

## DESCRIPTION

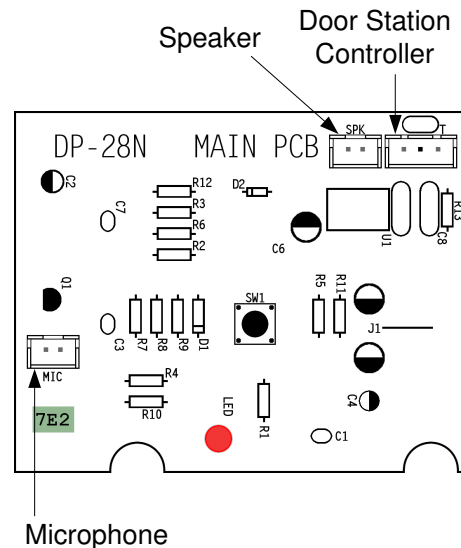

**DP28NIT**  
Ivory Polymer

The **DP28NIT** is the basic Door Station model. Manufactured in a sturdy ivory polymer, this Door Stations look great anywhere it is placed. This unit provides standard door-to-phone communication when used with the **DP28C\***. Installation and operation are very simple. The **DP28NIT** is also available in a kit with the DP28C as the **DP28IT**.

\*DP28C only included in kits

## FEATURES

- Manufactured in sturdy polymer
- Elegant Ivory finish looks great on any surface
- Mounts easily on most surfaces including stucco, fences, and gates
- Installs with a single pair of wires
- Optional Door Station Awning (DP28NTA) for additional style as well as protection from the environment
- No external power required: power drawn from connected Main Door Station Controller

## APPLICATIONS

- Communicate with people at a door, gate, or any other entrance way where Door Station is present
- Use in conjunction with the DP29CI to activate external trigger devices (e.g. door chimes, cameras, lights...) with the Door Station
- Use in conjunction with the DP29SW to open electronically locked doors or gates with the phone
- Use as extra Door Station to any Door Station Kit
