

DTEK, LPDTEK and MVP models

PRODUCT INFORMATIONAL BULLETIN

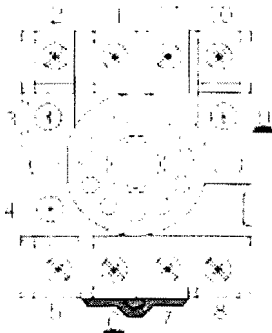

IMPORTANT!

This notice applies to LD11 series socket bases, HAR-11 harness and pre-wired operator socket bases for loop detectors. Pin 4 must be connected to operator chassis ground connection for proper surge protection of detector loops and prevent potential shock hazard.

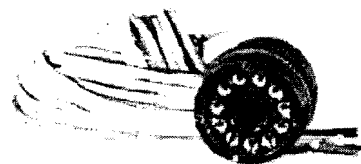

Note location of pin 4 on the socket bases shown below. The HAR-11 harness is pre-wired to pin 4 with the green wire.

LD-11 Base

LD-11B Base

HAR-11 Harness

IMPORTANT!

This product is an accessory or part of a system. Always read and follow the manufacturer's instructions for the equipment before connecting this product. Comply with all applicable codes and safety regulations. Failure to do so may result in damage, injury or death.
